Little Windows Into Art Therapy Deborah Schroder, 2005 Drawing on her own development as an art therapist and her extensive experience of supervising new therapists and students Schroder provides practical advice on encouraging nervous or reluctant clients or those unfamiliar with art therapy to benefit from artmaking She argues for a two way sharing of art between therapist and client

BECOMING AN ART THERAPIST Maxine Borowsky Junge, Kim Newall, 2015-04-01 This is not a how to book but rather about the experience of becoming an art therapist The text covers issues in supervision and mentorship contains stories by art therapy students about what they are thinking and feeling and letters to young art therapists by highly regarded professionals in the field The reader has the advantage of ideas and responses from both a student art therapist and an art therapist with many years experience and is clearly intended for students aiming for a career Chapter 1 is about students as a secret society and the importance of student colleagues The second chapter is a short history of art therapy education while Chapter 3 is a review of some literature potentially useful to art therapy students Chapter 4 represents Kim Newall's journal with imagery of her internship experience as a third year graduate student in a community clinic For Chapter 5 art therapy graduate students in various geographical sections of the United States describe their worst and best student experiences and their most important role models Chapter 6 is about mentoring what it is and why an art therapist should have a mentor In Chapter 7 twelve senior art therapists each with many years experience write a personal letter to the coming generations of art therapists The letter writers are all pioneers in the field Finally Chapter 8 offers a selected art therapy bibliography This extraordinary book conveys the message you can do this and it's worth it The text is a much needed contribution to the field of art therapy Students for many semesters to come will be reassured validated and informed Experienced art therapists will find valuable perspectives on supervision teaching and mentorship

EXPLORING AND DEVELOPING THE USE OF ART-BASED GENOGRAMS IN FAMILY OF ORIGIN THERAPY

Deborah Schroder, 2015-06-30 Exploring and Developing the Use of Art Based Genograms in Family of Origin Therapy was written to share the almost magical understandings that literally become visible when we use symbols metaphors and imagery in the genogram process The traditional genogram process is invaluable in helping people understand family history and who was present in generations of family life An astonishing movement into depth of meaning happens when people are asked to create a visual image or symbol for their family members and ancestors Suddenly through metaphor we can see the emotional impact and the qualities of relationships that these images and therefore family members hold Unspoken or hidden family beliefs patterns and rules suddenly surface from the depths of the art freeing one from following along unconsciously and opening up the possibilities for choice as one moves into the future The foundation of the art based genogram provides abundant information about the family generational theme that is revealing and insightful for the art maker It allows support for a creative depiction of the art maker's ancestral pains sufferings joys celebrations and life's viewpoints This creative

endeavor reveals therapeutic information that art makers can integrate into their current present day lives Major topics include 1 the historical use of the genogram 2 the family of origin and unspoken or hidden family beliefs 3 how to create art based genograms 4 therapeutic uses in individual therapy 5 therapeutic uses in couples and family work 6 how to welcome children to the process 7 the intergenerational flow of special issues and 8 a wide variety of uses for art based genograms Case examples are used to illustrate specific points throughout the book This unique text will be a valuable resource for art therapists counselors and other mental health professionals
