Liturgy and Hermeneutics Joyce Ann Zimmerman, 1999 By its very nature hermeneutics the art or

science of interpreting is interdisciplinary It is equally important for scholars of literature philosophy biblical texts and theology In spite of the fact that interpretation has long been an important concern for Scripture exegetes and that in recent years liturgists have paid increasing attention to methods there is no major work that specifically addresses the issues of hermeneutics for liturgy Liturgy and Hermeneutics fills that void In Liturgy and Hermeneutics Joyce Ann Zimmerman explains that all communication requires some interpretation even everyday conversations in which we are hardly aware of it But a great deal of communication is far more complex Anytime we try to describe such things as an idea a concept or an experience we are well beyond ordinary language use and into the realm of language as a symbol system Since symbols have both a literal meaning and another level of meaning available only through interpretation much of our communication is hermeneutical Liturgy is no exception it too is hermeneutical In the past everything about liturgy seemed clear and understandable and the rituals were denotative However Zimmerman argues that lack of interpretation may have deprived worshipers of the richness proper to liturgy A non interpretive approach to liturgy tends to reduce it to rubrics or received grace We must likewise be wary of an interpretation of liturgy that is too subjective Only authentic interpretation examines liturgy's richness while remaining faithful to its tradition doctrinal content and ritual expressions In Liturgy and Hermeneutics Zimmerman specifically addresses hermeneutics and its use in liturgy and liturgical studies Her purpose is twofold 1 to introduce readers to a complex body of literature so they can become literate in a technical field and 2 to guide readers through the complex issues and strategies involved in interpreting liturgy as text as ritual as life Zimmerman does not promote a single hermeneutic approach but instead points out the advantages and disadvantages of various approaches Chapters are What's at Stake Overview of Hermeneutical Theory and Issues Critical Methods Post critical Methods Hermeneutics and Liturgical Studies Today and an epilogue that raises questions yet to be comprehensively addressed by liturgists

Hymns and Hymnody: Historical and Theological Introductions, Volume 3 Mark A. Lamport, Benjamin Forrest, Vernon M. Whaley, 2020-01-01

Hymns and the music the church sings in worship are tangible means of expressing worship And while worship is one of if not the central functions of the church along with mission service education justice and compassion and occupies a prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues must be maintained to ensure a proper focus in worship Hymns and Hymnody Historical and Theological Introductions is a sixty chapter three volume introductory textbook describing the most influential hymnists liturgists and musical movements of the church This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and composers who have impacted the church over the course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature
