Liverpool And Transatlantic Slavery:

Liverpool and Transatlantic Slavery David Richardson, Anthony Tibbles, Suzanne Schwarz, 2007-01-01 As Britain's dominant port for the slave trade in the eighteenth century Liverpool is crucial to the study of slavery And as the engine behind Liverpool's rapid growth and prosperity slavery left an indelible mark on the history of the city This collection of essays boasting an international roster of leading scholars in the field sets Liverpool in the wider context of transatlantic slavery The contributors tackle a range of issues including African agency slave merchants and their society and the abolitionist movement always with an emphasis on the human impact of slavery *Slave Captain* Suzanne

Schwarz, 2008-05-01 As few accounts written by slave ship captains are known to have survived the personal papers of James Irving are of tremendous interest and academic significance Irving built a successful career in the slave trade of eighteenth century Liverpool first as a ship's surgeon and then as a captain Remarkably he was himself enslaved when his ship was wrecked off the coast of Morocco and he was captured by people described as wild Arabs and savages This edition of forty letters and his journal reveals the reaction of the slaver to the experience of slavery as well as throwing light on the complex and to modern eyes repugnant features of the transatlantic slave trade The result is both a compelling narrative and a valuable reference text This thoroughly revised edition of Suzanne Schwarz's best selling book includes recently discovered archive material *Transatlantic Slavery* Anthony Tibbles, Anthony H. Tibbles, 2005-01-01 Between 1500 and 1870 European traders transported millions of Africans to the Americas to work as slaves yet despite the wealth of scholarship on this period many people remain uninformed about the history of the slave trade and its implications for the modern black experience Published to accompany a permanent gallery in the Merseyside Maritime Museum *Transatlantic Slavery* documents this era through essays on women in slavery the impact of slavery on West and Central Africa and the African view of the slave trade Richly illustrated it reveals how the slave trade shaped the history of three continents Africa the Americas and Europe and how all of us continue to live with its consequences *The Persistence of Memory* Jessica Moody, 2020 The Persistence of

Memory tells the history of the public memory of transatlantic slavery in the largest slave trading port city in the world from the end of the 18th century into the 21st century revealing the persistence of slavery memory in Liverpool as an ongoing contested debate **Liverpool and the Unmaking of Britain** Sam Wetherell, 2025-02-27 Few cities in the world are as famous as Liverpool the home of the modern world's most celebrated rock group and of a legendary football team The city is equally notorious for its poverty its ethnic and racial divides and above all its decline For Liverpool was once a major port growing rich on slavery on trade with the Americas and the British Empire's outposts in Africa and Asia In the 1980s it was described as obsolete Yet the city fights on This is the epic history of Liverpool since the Second World War It is a story of vast docklands shrinking and eventually vanishing when corporations discovered they could shift goods in containers and dispense with human workers of industries like car manufacturing mushrooming and disappearing of huge new suburbs

being built and neglected It is a moving and horrifying narrative of casual racism Chinese sailors deported en masse in the aftermath of the war systematic discrimination against the city's Black population and of resistance culminating in the Toxteth riots in 1981 It is the story of a city fighting against a descent into obsolescence Liverpool also becomes a prism through which recent British history is brought into a new focus It is the fascinating history of a single iconic city But it is also a warning of what the future may hold for many more communities

Slavery in the Age of Memory Ana Lucia Araujo, 2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history *Slavery in the Age of Memory Engaging the Past* explains how ordinary citizens social

groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white social actors and scholars influenced the ways slavery is represented in George Washington s Mount Vernon and Thomas Jefferson s Monticello in the United States How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC Why have artists used their works to confront the debates about slavery and its legacies The important debates addressed in this book resonate in the present day Arguing that memory of slavery is racialized and gendered the book shows that more than just attempts to come to terms with the past debates about slavery are associated with the persistent racial inequalities racism and white supremacy which still shape societies where slavery existed Slavery in the Age of Memory Engaging the Past is thus a vital resource for students and scholars of the Atlantic world the history of slavery and public history

British Contested History Caroline Donnellan,2024-07-25 This book examines the issues arising from British contested history by looking at how it came to be

constructed how it developed and how attitudes over time have begun to change towards it It considers how this narrative was first created through the writing of British history It explores the private spaces of the court the political places of the state and the public places of the street Beyond British shores this history has also been enacted through international heritage sites when objects were removed and taken back to Britain Conclusively it explores how the historic spaces of a maritime city has further entrenched an already complex history of the nation How this research brings new insights into this field is by looking at it through the lens of place space and the spatial turn The underlining research questions are What role does place and space play in historical constructions of the past How do place and space contribute to contested history How can these places and spaces be re appropriated and reused and endowed with new meanings Slavery, Capitalism and the Industrial Revolution Maxine Berg, Pat Hudson, 2023-05-25 The role of slavery in driving Britain's economic development is often debated but seldom given a central place In their remarkable new book Maxine Berg and Pat Hudson follow the money to document in revealing detail the role of slavery in the making of Britain's industrial revolution Slavery was not just a source of wealth for a narrow circle of slave owners who built grand country houses and filled them with luxuries The forces set in motion by the slave and plantation trades seeped into almost every aspect of the economy and society In textile mills iron and copper smelting steam power and financial institutions slavery played a crucial part Things we might think far removed from the taint of slavery such as eighteenth century fashions for indigo patterned cloth sweet tea snuff boxes mahogany furniture ceramics and silverware were intimately connected Even London's role as a centre for global finance was partly determined by the slave trade as insurance financial trading and mortgage markets were developed in the City to promote distant and risky investments in enslaved people The result is a bold and unflinching account of how Britain became a global superpower and how the legacy of slavery persists Acknowledging Britain's role in slavery is not just about toppling statues and renaming streets We urgently need to come to terms with slavery's inextricable links with Western capitalism and the ways in which many of us continue to benefit from slavery to this day The Black Atlantic's triple burden Adekeye Adebajo, 2025-06-10 This volume demonstrates the continuities of five centuries of European slavery and colonialism in Africa the Caribbean and the Americas examining calls for reparations in all three regions for crimes against humanity Authored by eminent scholars largely based in these areas it contributes to transforming educational curricula globally This collection is a comprehensive multidisciplinary and enables cross regional comparisons to be drawn ensuring that important global events are read from diverse perspectives The volume is aimed at subject area experts as well as students in diverse areas of the humanities and beyond who seek a sound introductory reference book to these important historical subjects to which they are often not exposed The authors thus represent a multi disciplinary group encompassing diverse fields such as history international relations politics economics sociology anthropology literature and languages The book introduces readers to foreign language historical sources often inaccessible to an English speaking audience on these pivotal topics Beyond
