*Coloniality of the US/Mexico Border* Roberto D. Hernández, 2018-10-23 National borders are often taken for granted as normal and necessary for a peaceful and orderly global civil society Roberto D Hernández here advances a provocative argument that borders and border violence are geospatial manifestations of long histories of racialized and gendered colonial violence In *Coloniality of the U S Mexico Border* Hernández offers an exemplary case and lens for understanding what he terms the epistemic and cartographic prison of modernity coloniality He adopts coloniality of power as a central analytical category and framework to consider multiple forms of real and symbolic violence territorial corporeal cultural and epistemic and analyzes the varied responses by diverse actors including local residents government officials and cultural producers Based on more than twenty years of border activism in San Diego Tijuana and El Paso Ciudad Juárez this book is an interdisciplinary examination that considers the 1984 McDonald's massacre Minutemen vigilantism border urbanism the ongoing murder of women in Ciudad Juárez and anti border music Hernández's approach is at once historical ethnographic and theoretically driven yet it is grounded in analyses and debates that cut across political theory border studies and cultural studies The volume concludes with a theoretical discussion of the future of violence at and because of national territorial borders offering a call for epistemic and cartographic disobedience

*Immigrant Theology* Rev. Dr. Job J. Cobos, 2018-09-20 What if I told you a story about children experiencing deportation What if I told you of parents and children facing interment and enduring untold hardship as they traveled through the desert landscape What if I told you about families that brave destructive environments in their homeland the as they flee What if I told you about the religious experience of immigrants whose faith helped them conquer their daily fear of being deported while they made a new life for themselves in this country What if I told you about the power of establishing relationships as the solution to the problem of immigration What if I told you about Jesus encountering and establishing relationships with foreigners

**Border Towns and Border Crossings** Roger Bruns, 2019-09-19 This is a compelling and revealing look at the history of the U S Mexico border as a place a symbol of cross cultural melding and a source of growing anxiety over immigration and national security The U S Mexico border is far more than a line that separates two countries A winding path of nearly 2 000 miles from the Pacific Ocean to the Gulf of Mexico it is history commerce and culture In recent years however attitudes about border crossings and border issues have hardened as has immigration policy A source of growing anxiety over illegal immigration national security and safety the border has become a

symbol of political cataclysm over immigration law and enforcement the future of DACA the increasingly harsh treatment of refugees and others who attempt to cross without authorization and the future of U S policy This book traces the history of the border and its people from the creation of the border line to explosive issues surrounding immigration and the future of the United States as a nation of diverse cultures and races **The Wind Doesn't Need a Passport** Tyche Hendricks, 2010 There are other books dealing with life at the border but none as intelligent searching objective or encompassing as Tyche Hendricks vivid evocation of this region its people its landscape its industry its problems and its unique culture Peter Schrag author of Not Fit for Society Immigration and Nativism in America This vivid evocative book made me think of the Robert Frost line Something there is that doesn't love a wall Tyche Hendricks multilayered portrait of the human communities that transcend the U S Mexico border should remind us all of what an artificial thing barriers fences and checkpoints are Maybe just maybe someday we like so much of western Europe can do without them Adam Hochschild author of Bury the Chains This is an ambitious undertaking and Hendricks excels finding stories along the way that illustrate the clash between within and along that nearly 2 000 mile stretch of territory Her reporting illustrates that for many U S Mexico border residents the international bridge is something you cross on your way to visit family shop for groceries get to a doctor or work Macarena Del Rocio Hernandez University of Houston Dear President Obama next time you are at Camp David spend a couple of hours reading The Wind Doesn't Need a Passport While the Health Care overhaul may well come to define your presidency immigration will define the future of our country In this marvelous book rigorously grounded smartly argued beautifully crafted Tyche Hendricks captures in stories of biblical proportion the contours of the magical line that at once unites us and divides us as Americans and as neighbors of our indispensable partner in the South Ms Hendricks's book Mr President will remind you just what is at stake in getting immigration reform right All Californians Texans and Arizonians who think they know the border should read this book It is essential reading for our times Marcelo M Suarez Orozco Fisher Membership Fellow Institute for Advanced Study and co author of Latinos Remaking America **Barrio Libre** Gilberto Rosas, 2012-06-19 In this book Gilberto Rosas draws on his in depth ethnographic research among the members of Barrio Libre to understand why they have embraced criminality and how neoliberalism and security policies on both sides of the border have affected the youths descent into Barrio Libre **Because I Don't Have Wings** Philip Garrison, 2022-10-04 For Mexican workers the agricultural valleys of the inland Northwest are a long way from home But there they have established communities settlements recent enough that it feels like these newly arrived immigrant mexicanos are pioneers still getting used to the Anglos and to each other This book looks at the inner lives of Mexican immigrants in a northwestern U S boomtown a loose collection of families from Michoacan and surrounding states living a mere 150 miles from Canada They are more isolated than most mexicano communities closer to home and they endure severe winters that make life more difficult still Neighborhoods form dissolve and reform Family members who leave may stay in touch but friends very often simply vanish

leaving only their nicknames behind Without a market or a plaza residents meet at weddings christenings and funerals or at the food bank Philip Garrison has spent most of his life in this region and shares in vivid prose tales of immigrant life both contemporary and historical revealing the dual lives of first generation Mexican immigrants who move smoothly between the Yakima Valley and their homes in Mexico And with a scholar s eye he examines figures of speech that reflect mexicano feelings about immigrant life offering glimpses of adaptation through offhand remarks family spats and town gossip Written with irony but bursting with compassion Because I Don t Have Wings features vivid characters telling anecdotes and poignant reflections on life unfolding an immigrant s world strikingly different from the one we usually read about Adaptation persistence and survival we learn are traits that mexicano culture values We also learn that over time mexicano immigrants don t merely adapt to the culture of el norte they transform it

The Tenants of East Harlem Russell Leigh Sharman,2006-08-03 Rich with the textures and rhythms of street life The Tenants of East Harlem is an absorbing and unconventional biography of a neighborhood told through the life stories of seven residents whose experiences there span nearly a century Modeled on the ethnic distinctions that divide the community the book portrays the old guard of East Harlem Pete one of the last Italian holdouts Jos a Puerto Rican and Lucille an African American Side by side with these representatives of a century of ethnic succession are the newcomers Maria an undocumented Mexican Mohamed a West African entrepreneur Si Zhi a Chinese immigrant and landlord and finally the author himself a reluctant beneficiary of urban renewal Russell Leigh Sharman deftly weaves these oral histories together with fine grained ethnographic observations and urban history to examine the ways that immigration housing ethnic change gentrification race class and gender have affected the neighborhood over time Providing unique access to the nuances of inner city life The Tenants of East Harlem shows how

roots sink so quickly in a community that has always hosted the transient how new immigrants are challenging the claims of the old and how that cycle is threatened as never before by the specter of gentrification

Urban Violence, Resilience and Security Glass, Michael R., Seybolt, Taylor B., Williams, Phil, 2022-01-13 Written in a comprehensive yet accessible style Urban Violence Resilience and Security investigates the diverse nature of urban

violence within Latin America Asia and Africa It further analyzes how regular and irregular governing mechanisms can provide human security despite the presence of chronic violence *Building Fortress Europe* Karolina S. Follis, 2012-07-24 What happens when a region accustomed to violent shifts in borders is subjected to a new peaceful partitioning Has the European Union spent the last decade creating a new Iron Curtain at its fringes *Building Fortress Europe* The Polish Ukrainian Frontier examines these questions from the perspective of the EU's new eastern external boundary Since the Schengen Agreement in 1985 European states have worked together to create a territory free of internal borders and with heavily policed external boundaries In 2004 those boundaries shifted east as the EU expanded to include eight postsocialist countries including Poland but excluding neighboring Ukraine Through an analysis of their shared frontier *Building Fortress Europe* provides an ethnographic examination of the human social and political consequences of developing a specialized targeted and legally advanced border regime in the enlarged EU Based on fieldwork conducted with border guards officials and migrants shuttling between Poland and Ukraine as well as extensive archival research *Building Fortress Europe* shows how people in the two countries are adjusting to living on opposite sides of a new divide Anthropologist Karolina S Follis argues that the policing of economic migrants and asylum seekers is caught between the contradictory imperatives of the European Union's border security economic needs of member states and their declared commitment to human rights The ethnography explores the lives of migrants and their patterns of mobility as framed by these contradictions It suggests that only a political effort to address these tensions will lead to the creation of fairer and more humane border policies

*Transforming Borders* Alejandra C. Elenes, 2010-11-15 *Transforming Borders* Chicana o Popular Culture and Pedagogy contributes to transformative pedagogies scholarship by adding the voices of Chicana feminist pedagogies epistemologies and ontologies C Alejandra Elenes develops her conceptualizations of border transformative pedagogies by linking the relationship between cultural practices knowledge and teaching in everyday life She analyzes Chicana feminist cultural workers educational actors re imagining three Mexican figures La Llorona the weeping woman the Virgen of Guadalupe and Malintzin Malinche as epistemological and pedagogical meanings The three figures represent multiple meanings traditional views on femininity religion and nationalist views on women yet at the same time feminists have re imagined these three figures and developed counter narratives that can offer alternatives to the traditional meanings In developing border transformative pedagogies Elenes looks at the significance of historical events such as the creation of the Mexico U S border to understand the experiences of people of Mexican descent in the United States She also examines oral histories of the legend of La Llorona in the Southwest historical documents on the Spanish conquest of Mexico and Chicana artists such as Ester Hernandez Yolanda Lopez Consuelo Jimenez Underwood and Alma Lopez re imagining of the Virgen of Guadalupe The conflicts over the meanings of the three figures can help us understand how Chicanas have used their voices to counter economic and gender inequalities and how pedagogical practices show that cultural productions are sites where forms of

domination can be contested and recreated in ways that allow for the creation of alternative identities and subjectivities
