Kyle, 2013-10-24 Christian ministers working in congregations and with nonprofits seek to discern what it is that God has been doing and where it is that the Spirit might be leading them In *Living Spiritual Praxis* Eric Kyle looks to address the lack of resources on the work and dynamics of Christian spiritual formation that actually develop a specific process for spiritual formation programs Kyle strives to provide a guide for spiritual formation by using the praxis oriented fields of action research and practical theology He explores a process for understanding the nature and dynamics of a situation discerning specific formative interventions assessing various approaches and continually assessing and modifying these understandings and approaches *Living Spiritual Praxis* will be an invaluable resource for all Christians leaders and laity alike who are challenged by the spiritual formation of church members communities groups and individuals

*Building Bridges, Leading Hearts* Ronald R. Rojas, 2024-04-17 Its easy to learn and then apply secular leadership models into the pastoral and ministry sector But is it the best alternative to form Church leaders What is missing when business models are used in ministry This book is about creating more sensitivity on how some of the secular models can unintentionally limit pastoral and ministry effectiveness It suggests a competency approach to address leadership influences that are missing yet essential to ministry and the faith based sector In many ways this book is a guide for securing and developing a more engaging ministry leadership one that emerges from the intersection of the leadership and pastoral theology disciplines Its guiding principle is Leadership is a Spiritual Practice This book is a must have for leadership training programs and anyone engaged in forming for ministry leadership roles

**Leadership and Listening** Donald E. Zimmer, 2011-06-22 Church leaders must fundamentally change the way they view leadership governance and management in their organizations if they are to take seriously the need to listen to God s desires before acting In *Leadership and Listening* readers will find encouragement and specific suggestions for re imagining church governance and management Zimmer observes that the contemporary church is rooted in both the kingdom of God and the systems and cultures of government and business Most people who serve in governing and management roles in the church in the United States today have been formed in the corporate world and acculturated to parliamentary process As a result many church governing boards are about business rather than their primary task discerning God s desires for the part of the church they serve Through research with more than one hundred church leaders Zimmer learned that the church and the business community possess many insights and resources that can help boards shift toward a focus on seeking first the desires of God s heart and then responding effectively By drawing on the guidance Zimmer offers a church board can transform itself from a group that manages the day to day affairs of the church to one that makes listening prayer worship reflection and community the first priority

**Educating in the Spirit** Eric J. Kyle, 2019-05-16 This book is an attempt to

address two struggles for theistic educators e g those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective

*Spiritual Being and Becoming* Eric J Kyle, 2017-05-25 As many as 100 billion neurons make up the human nervous system a system that is incredibly complex and a fundamental part of what makes us who we are But there is far more to human beings than biology Many academic disciplines study the human condition and there are many schools of thought within that study We must also appreciate that the study of human nature did not begin in contemporary times History is full of texts that offer detailed explorations of the human condition However no consensus has yet emerged Consensus or not those working towards religious and spiritual formation pursue the transformation of their communities This book offers a fuller understanding of some of the common views of human nature and also insights into how we might utilise this knowledge in our ministries ministries that strive towards the spiritual being and becoming of our world
