

A photograph of Buddhist monks in orange robes walking in a line on a road, with a soldier in military gear in the foreground. The image is tinted with a reddish-orange hue. The monks are walking away from the camera, and the soldier is in the foreground, partially obscuring the view. The background shows some trees and a building.

Living Silence In Burma Surviving Under Military Rule:

Living Silence in Burma Christina Fink, This survey of Burmese society shows what it means to be governed by a repressive military dictatorship The book also describes forms of resistance being offered The range of strategies of the military regime to maintain power is covered **Living Silence in Burma** Christina Fink,2013-07-04 Eight years after the first edition of this insightful and highly regarded book Burma remains one of the most troubled nations in Southeast Asia While other countries have democratized and prospered Burma is governed by a repressive military dictatorship and is the second largest producer of heroin in the world In this exceptionally readable yet scholarly account of Burma today Christina Fink gives a moving and insightful picture of what life under military rule is like Through the extensive interviews conducted inside and outside the country we begin to understand Burma s political and domestic situation and a comprehensive understanding of why military rule has lasted so long This significantly revised new edition includes material taking the reader up to present day action and accounts including the impacts of the dramatic 2007 monks demonstrations which were coordinated with former student activists and members of Aung San Suu Kyi s party The book explores the regime s continued attempts to weaken and divide the democratic movement and the ethnic nationalist organizations and explains how the democratic movement and ethnic groups have sought to achieve their goals in part by working more closely together

Myanmar's Rohingya Genocide Ronan Lee,2021-01-28 The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations forced migrations and extra judicial killings on an enormous scale This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of the disaster Casting new light on Rohingya identity history and culture this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide This book adds convincingly to the body of evidence that the government of Myanmar has enabled a genocide in Rakhine State and the surrounding areas *Pluralist Constitutions in Southeast Asia* Jaclyn L Neo,Ngoc Son Bui,2019-04-04 This book examines the presence of ethnic religious political and ideational pluralities in Southeast Asian societies and how their respective constitutions respond to these pluralities Countries covered in this book are Brunei Cambodia Indonesia Laos Malaysia Myanmar the Philippines Singapore Thailand and Vietnam The chapters examine first the range of pluralist constitutional values and ideas embodied in the constitutions secondly the pluralist sources of constitutional norms thirdly the design of constitutional structures responding to various pluralities and fourthly the construction and interpretation of bills of rights in response to existing pluralities The pluralist constitution is thus one that recognises internal pluralities within society and makes arrangements to accommodate rather than eliminate these pluralities Secrets and Power in Myanmar Andrew Selth,2019-09-06 No external observer knows more about Myanmar s security and intelligence apparatus than Andrew Selth In this book he presents an account of the structure and functions of Myanmar s deep state along with a

tale of personal ambition rivalry and ruthless power politics worthy of John Le Carre A thoroughly educative entertaining and intriguing read Professor Michael Wesley Dean College of Asia and the Pacific The Australian National University Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar Burma and its institutions This work on the more recent aspects of the country s intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community and probes the social and institutional bases of the attitudes giving rise to that critical aspect of power We are once again in Dr Selth s debt This is required reading for serious observers of the Burmese scene David I Steinberg Distinguished Professor of Asian Studies Emeritus Georgetown University By lifting the lid on a pervasive yet secretive intelligence apparatus Andrew Selth makes an outstanding contribution to Myanmar Studies For scholars and practitioners alike this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule Professor Ian Holliday Vice President Teaching and Learning The University of Hong Kong

Luther's Theology of Two Kingdoms in Buddhist and Christian Communities Pa Yaw,2024-05-29 Socially engaged religion teaches that people of faith have a responsibility to address and reduce suffering in all its forms both physical and spiritual including suffering resulting from social injustice exploitation oppression false faith and so forth True religion engages with society to alleviate suffering and bring transformation In other words religious violence is an obscenity a deviation from the true character of religion Martin Luther's Theology of Two Kingdoms in Buddhist and Christian Communities examines the principle of separation between religion and politics in the context of both Buddhist and Christian communities In predominantly Buddhist contexts such as Myanmar where a reciprocal relationship between religion and politics is expected separation is not effective Attempts by Christians to separate religion and politics cause the church to run away from tyranny and follow the state with blind obedience Martin Luther's model of two distinct but interconnected systems for religion and politics creates space for each institution to give constructive advice and criticism to the other for the health of all human beings *Demystifying Myanmar's Transition and Political Crisis* Chosein Yamahata,Bobby Anderson,2022-01-11 This book

offers the assessment of Myanmar's societal changes development aspects and political situation over the course of the nation's short lived democratic transition disrupted by the coup d'état on 1 February 2021. A multitude of authors with different expertise add new dimensions of analysis to provide a foundation for any future international cooperation in Myanmar's center and peripheries. The military's institutionalization of its influence and control in political economic and social affairs has negatively affected the safety security and peace of people and their communities at the periphery. This in turn has led the people to undertake local grassroots initiatives towards securing a genuine democratic transition at the local and national level. The chapters probe into Myanmar's transition and political crisis through in depth discussion on the issues such as but not limited to state fragility community resilience political leadership ethnic women's organizations human security education equality IDPs and non state actors ethnic community based health organizations the 2020 election peace process development issues the coup's destruction and a new born unity. The book covers an important collection of inputs from young and prominent scholars alike offering a valuable resource for general readers students and practitioners. The editors present this volume as a vital collection to literature at a time of heated political crisis and societal responses on her current course since the contributors highlight the state of Myanmar by also focusing on the margins the grassroots and the recent coup.

Routledge Handbook of Contemporary Myanmar Adam Simpson, Nicholas Farrelly, Ian Holliday, 2018-03-05

After decades of mismanagement and direct military rule Myanmar's contested transition to a more democratic government has rapidly shifted the outlook in this significant Southeast Asian nation. Since 2011 the removal of Western sanctions and new foreign investments have resulted in high rates of economic growth and an expanding middle class albeit from a very low base. In a result unthinkable a few years earlier former political prisoner and Nobel laureate Aung San Suu Kyi and her party the National League for Democracy (NLD) formed a national government in early 2016. However despite significant political and economic reforms since the liberalisation process commenced the transition to civilian rule remains constrained by the military's 2008 Constitution which guarantees that it operates unfettered by civilian oversight. As a result although some ethnic conflicts have abated others continue to fester and new conflicts have erupted. With a daunting task ahead the NLD government has made some progress in removing the vestiges of repressive military era laws but many remain untouched and some of the practices of the new government provide unwelcome reminders of its authoritarian history. This timely Handbook describes the political economic and cultural dimensions of this crucial period of transition in Myanmar. It presents explanations for contradictory trends including those that defy some of the early narratives about the comprehensive transformation of Myanmar. The Handbook also considers the impact of major environmental strategic and demographic trends which help underscore that Myanmar's development will be an ongoing task. In addition to introductory and concluding chapters by the editors the body of the Handbook is divided into seven core sections: Fundamentals Spaces Cultures Living Governance International Challenges. Written by an international team of scholars with a mix of world leading

established academics and talented emerging researchers the Handbook provides a rigorous scholarly overview of Myanmar's politics, economics and society. As Myanmar opens to Western businesses and government agencies, this is an invaluable reference book that will provide a foundation for further research and offer the first port of call for scholars, students and policy makers working on Myanmar and Asia. Migration, Gender and Social Justice Thanh-Dam Truong, Des Gasper, Jeff Handmaker, Sylvia I. Bergh, 2013-09-06. This book is the product of a collaborative effort involving partners from Africa, Asia, Europe and Latin America who were funded by the International Development Research Centre Programme on Women and Migration 2006-2011. The International Institute of Social Studies at Erasmus University Rotterdam spearheaded a project intended to distill and refine the research findings, connecting them to broader literatures and interdisciplinary themes. The book examines commonalities and differences in the operation of various structures of power, gender, class, race, ethnicity, generation and their interactions within the institutional domains of intra-national and especially inter-national migration that produce context-specific forms of social injustice. Additional contributions have been included so as to cover issues of legal liminality and how the social construction of not only femininity but also masculinity affects all migrants and all women. The resulting set of 19 detailed interconnected case studies makes a valuable contribution to reorienting our perceptions and values in the discussions and decision making concerning migration and to raising awareness of key issues in migrants' rights. All chapters were anonymously peer reviewed. This book resulted from a series of projects funded by the International Development Research Centre (IDRC) Canada. The West and the Rest Ross, Ian, 2005-09-22. We tend to view the world beyond these shores on the basis of what the media make of it, whether the media of words or of images and long considered or instant. Ian Ross offers a welcome change of perspective. He spent his career as a senior executive in two controversial industrial sectors, tobacco and oil, and necessarily sees the world through the lens of business. *The West and the Rest* examines what he gained, that we can learn from. *Human Rights Protection in Global Politics* K. Mills, D. Karp, 2015-01-15. This edited book by Mills and Karp brings together political, legal and moral perspectives on the responsibilities of human rights protection in world politics today. It critiques a narrow focus on states' violations of human rights, incorporates non-state actors and looks beyond the Responsibility to Protect policy framework. *Universities and Conflict* Juliet Millican, 2017-11-08. This book uses a series of case studies to examine the roles played by universities during situations of conflict, peacebuilding and resistance. While a body of work dealing with the role of education in conflict does exist, this is almost entirely concerned with compulsory education and schooling. This book, in contrast, highlights and promotes the importance of higher education and universities in particular to situations of conflict, peacebuilding and resistance. Using case studies from Europe, Africa, Asia and the Middle East, this volume considers institutional responses, academic responses and student responses, illustrating these in chapters written by those who have had direct experience of these issues. Looking at a university's tripartite functions of research, teaching and service in relation to the different phases or stages of conflict, pre-

conflict violence post conflict and peacebuilding it draws together some of the key contributions a university might make to situations of instability resistance and recovery The book is organised in five sections that deal with conceptual issues institutional responses academic led or discipline specific responses teaching or curriculum led responses and student involvement Aimed at those working in universities or concerned with conflict recovery and peacebuilding it highlights ways in which universities can be a valuable if currently neglected resource This book will be of much interest to students of peace studies conflict resolution education studies and IR in general On Money and Metta Laura Hornig,2020 Money and Mett symbolize the interconnectedness of economic processes and moral ideas in a Buddhist context mett loving kindness constitutes a core concept of Buddhism Based on eighteen months of research in the lowland Myanmar town of Patheingyi this book investigates manifold economic activities on the ground Particular attention is paid to the self employed and their relationships with relatives workers and community members The ethnography covers a range of topics including business formation and succession recruitment child labour ethnicity indebtedness and charity It is demonstrated that amidst rapidly changing socio economic conditions values rooted in kinship morality and Buddhism remain significant and continue to shape people s economic reasoning and activities Buddhism, Politics and Political Thought in Myanmar Matthew J. Walton,2017 Walton explains political dynamics in Myanmar through Buddhist thought providing a conceptual framework for understanding Myanmar s ongoing political transition **The Rebel of Rangoon** Delphine Schrank,2015-07-14 Journalist Delphine Schrank spent four years underground tracking Burmese dissidents whose semi clandestine existence and fight for democracy remained largely hidden behind their globally celebrated figurehead Aung San Suu Kyi Schrank follows the inner life of a daredevil young dissident his friends and rivals across rural hamlets and flickering Internet connections into prison cells and safe houses and deep into their own hearts as they escape spies and outwit interrogators fall in love or slip into insanity **The Burmese Labyrinth** Carlos Sardiña Galache,2020-03-10 In 2011 Myanmar embarked in a democratic transition from a brutal military rule that culminated four years later when the first free election in decades saw a landslide for the party of celebrated Nobel Prize winner Aung San Suu Kyi Yet even as the international community was celebrating a new dawn old wars were raging in the northern borderlands A crisis was emerging in western Arakan state where the regime intensified its oppression of the vulnerable Muslim Rohingya community By 2017 the conflict had escalated into a military onslaught against the Rohingya that provoked the most desperate refugee crisis of our times as over 750 000 of them fled their homes to neighbouring Bangladesh In *The Burmese Labyrinth* journalist Carlos Sardiña Galache gives the in depth story of the country Burma has always been an uneasy balance between multiple ethnic groups and religions He examines the deep roots behind the ethnic divisions that go back prior to the colonial period and so shockingly exploded in recent times This is a powerful portrait of a nation in perpetual conflict with itself
