Bob Gates, Helen Atherton

Living With Learning Disabilities Dying With Cancer:

Living with Learning Disabilities, Dying with Cancer Irene Tuffrey-Wijne, 2010 Cancer **Death, Dying, and Social Differences** David Oliviere, Barbara Monroe, Sheila Payne, 2011-09-15 This book examines access to specialist palliative care among different groups in society and the ways of working with difference within such services **How to Break Bad News to People with Intellectual Disabilities** Irene Tuffrey-Wijne, 2012-09-15 This book offers unique and adaptable guidelines that can be used by practitioners to ease the process of breaking bad news to people with intellectual disabilities It provides effective tips and support that will help social workers counsellors and caring professionals relay all types of bad news as sensitively and successfully as possible **Social Work with People with Learning Difficulties** Paul Williams, Michelle Evans, 2013-04-15 Part of the Transforming Social Work Practice series this title intends to support students on the social work degree It seeks to confirm and strengthen social work values and principles so that the progress and successes achieved by Valuing People can continue **Textbook of Palliative Care** Roderick Duncan MacLeod, Lieve Van den Block, 2025-02-25 This second edition provides the most up to date information on all aspects of palliative care including recent developments including COVID 19 global policies service provision symptom management professional aspects organization of services palliative care for specific populations palliative care emergencies ethical issues in palliative care research in palliative care public health approaches and financial aspects of care This new Textbook of Palliative Care remains a unique comprehensive clinically relevant and state of the art book aimed at advancing palliative care as a science a clinical practice and as an art Palliative care has been part of healthcare for over fifty years but it still needs to be explained to many Healthcare education and training has been slow to recognize the vital importance of ensuring that all practitioners have a good understanding of what is involved in the care of people with serious or advanced illnesses and their families However the science of palliative care is advancing and this new edition will contribute to a better understanding This new edition offers 86 updated or new chapters out of 108 written by experts in their given fields providing up to date information on a wide range of topics of relevance to those providing care towards the end of life no matter what the disease may be We present a global perspective on contemporary and classic issues in palliative care with authors from a wide range of disciplines involved in this essential aspect of care The Textbook includes sections addressing aspects such as symptom management and care provision organization of care in different settings care in specific disease groups palliative care emergencies ethics public health approaches and research in palliative care This new Textbook will be of value to practitioners in all disciplines and professions where the care of people approaching death is important specialists as well as non specialists in any setting where people with serious advanced illnesses are residing It is also an important resource for researchers policy and decision makers at national or regional levels Neither the science nor the art of palliative care will stand still so the Editors and contributors from all over the world aim to keep this Textbook updated so that the reader can

find new evidence and approaches to care *Learning Disability* Grant, Gordon, Ramcharan, Paul, Flynn, Margaret, 2010-05-01 *Learning Disability* uses a life cycle approach to show how those with learning disabilities can be helped most at different stages in their lives **An Essential Guide to Caring for People With a Learning Disability and Autistic People** Helen Jones, Andrea Page, Samantha Salmon, 2025-05-29 This essential text presents the core information that all nursing students and apprentices along with other key health and social care professions regardless of field need to know about caring for people with a learning disability and autism It outlines some of the key challenges faced by people with a learning disability and autism and ways in which good care can improve their quality of life People with a learning disability and autism are more likely to need support with aspects of everyday life be marginalised within society including within health and social care and die younger than the rest of the population They are also more likely to have additional communication needs sensory processing difficulties and require significant support to access healthcare as well as other opportunities across the course of their lives This innovative text highlights the core knowledge that all health and social care professionals need and emphasises the benefits of learning across different fields of practice It presents information about common conditions key skills and where a standard approach may need to be changed when caring for a person with a learning disability and autistic people It demystifies key issues and commonly misunderstood concepts and topics including distressed behaviours consent and reasonable adjustments The book also focuses on addressing health inequalities improving communication understanding mental capacity and presents case studies throughout to illustrate how care can and should be delivered Written for all who aspire to understand the needs of these individuals and to deliver care as effectively as possible this collaborative text brings together the voices of services users and their families and carers with those of nurses other health professionals lecturers and nursing students and apprentices **A Public Health Perspective on End of Life Care** Joachim Cohen, Luc Deliens, 2012-01-19 Focusing on population health and discussing studies using different methodologies this title presents a synthesis and overview of relevant research and empirical data on the end of life that can bear a basis for a more systematic public health of the end of life Intellectual Disability and Dementia Karen Watchman, 2014-05-21 An essential text for practitioners and students wishing to stay abreast of the latest developments in the field this book brings together the latest international research and evidence based practice in the field of dementia and intellectual disabilities describing clearly the relevance and implications for support and services Palliative Care Nursing: Principles and Evidence for Practice Catherine Walshe, Nancy Preston, Bridget Johnston, 2018-05-18 What can nurses do to support those receiving palliative care How do you ensure clear communication and maintain patients and families preferences Palliative Care Nursing is essential reading for nursing students professional nurses and other health and social care professionals providing supportive and palliative care to those with advanced illness or who are towards the end of life This third edition of the acclaimed textbook has been extensively revised and examines important research studies key

debates around care and strategies to advance palliative care nursing In four sections the book covers key elements of nursing practice towards the end of life Defining the palliative care patient Providing palliative nursing care Caring around the time of death Challenging issues in palliative care nursing Leading authors address contemporary issues and explore how to provide high quality person centred palliative care encouraging application to practice through exercises and case studies Chapters completely reworked or new for this edition include those on communication living with uncertainty bereavement care the costs of caring nurses decision making and capacity and palliative care worldwide The clarity of evidence presented and coverage of a diverse range of topics make this the foundational textbook for all studying palliative care at pre registration level postgraduate level or as part of CPD study With a foreword by last edition editor Professor Sheila Payne Lancaster University UK I welcome this third edition of Palliative Care Nursing and congratulations to the new team who have provided us with a dynamic and innovative development of a core text for palliative nursing practice As the largest workforce in palliative care and given the changing face of clinical practice for nurses including increased educational opportunity and expanding roles and responsibilities this book is timely in its focus on critical issues which frame and scope the reality of palliative care and the nursing contribution to that discipline The learning exercises in particular offer tools for educators and clinicians to reflect on practice and understand new ways of knowing in palliative care It will be an excellent resource for nursing both in the UK and Ireland and to the wider international audience having drawn on the breadth of global nursing expertise to bring this book together Philip Larkin Professor of Clinical Nursing Palliative Care University College Dublin and Our Lady s Hospice and Care Services Dublin Ireland President European Association for Palliative Care This is a book of substance that captures the current status of palliative nursing including the values and research evidence that underpin it The changing nature of palliative nursing as an evidence based specialism is balanced with practical skills and insights from experts and also considers the needs of those working with or concerned about the dying person s well being It covers a range of challenging issues as well as drawing on the wisdom of those who actually undertake this work on a daily basis I hope that students and practitioners from all disciplines will find this a useful resource to understand the art and craft of good palliative nursing Professor Daniel Kelly Fellow of the Royal College of Nursing and Royal College of Nursing Chair of Nursing Research Cardiff University UK

Person centred approaches when supporting people with a learning disability Liz Tilly, 2011-07-08 If you are working within the learning disability sector and studying for the QCF Diploma in Health and Social Care you will find this book invaluable in helping you to achieve the unit on Person Centred Approaches It explains person centred values how they must influence all aspects of your work and shows how to support active participation and choice The book is easy to navigate with each chapter covering one of the learning outcomes within the unit Each chapter begins with an example taken from real people s stories and lots of activities photographs and other illustrations are included throughout

Listening to People with Learning Disabilities who are Living and Dying with Cancer

,2009 **Oxford Textbook of Geriatric Medicine** Jean-Pierre Michel,B. Lynn Beattie,Finbarr C. Martin,Jeremy Walston,2017-12-01 Over the past two decades there has been a marked change in global age demographics with the number of over 60s increasing by 82% and the number of centenarians by 715% This new found longevity is testament to the success of recent advances in medicine but poses significant challenges to multiple areas of health care concerning older patients Building upon its predecessor s reputation as the definitive resource on the subject this new edition of the Oxford Textbook of Geriatric Medicine offers a comprehensive and multinational examination of the field Fully revised to reflect the current state of geriatric medicine it examines the medical and scientific basis of clinical issues as well as the ethical legal and socio economic concerns for healthcare policy and systems Over 170 chapters are broken up into 16 key sections covering topics ranging from policy and key concepts through to infection cancer palliative medicine and healthy ageing New material includes focus on the evolving concepts of malnutrition sarcopenia frailty and related geriatric syndromes and integration of geriatric principles from public health primary and specialized care and transitional stages from home to emergency medicine and surgery rehabilitation and long term care The Oxford Textbook of Geriatric Medicine brings together specialists from across the globe to provide every physician involved in the care of older patients with a comprehensive resource on all the clinical problems they are likely to encounter as well as on related psychological philosophical and social issues Cancer and Cancer Care Debbie Wyatt,Nicholas Hulbert-Williams,2014-11-30 This book creates new ground for all health professionals working in cancer care to read enjoy look at and question their practice Caroline Adcock Clinical Practice Educator Haematology and Oncology Royal Shrewsbury Hospital Cancer and Cancer Care is a complete study of cancer the care of people with the disease and its impact on everyday life Addressing the physical and psychosocial aspects of the illness in detail it covers all fundamental aspects of cancer diagnosis treatment survival and aspects of psychosocial support for all those affected by cancer patients their families and their healthcare providers Chapters include A review of the latest theory and evidence on over 30 separate topic areas Reflective questions which challenge readers to reappraise what they have learned Chapter overviews and chapter summaries which highlight the key points The book is essential reading for all those on cancer care courses at undergraduate and postgraduate level It will be valuable reading for nurses oncologists psychologists social workers and all healthcare practitioners and researchers working with people affected by cancer An Introduction to Social Policy Peter Dwyer,Sandra Shaw,2013-03-15 An Introduction to Social Policy explores essential welfare topics themes and issues for students studying social policy or related disciplines such as sociology social work or nursing and social care Part One examines key concepts including welfare social justice diversity and health and well being Part Two explores policy issues in relation to key stages of the lifecourse Part Three takes a comparative perspective discussing the international issues and supranational bodies that impact on British and European social policy today The concise chapters define the key terms and outline the central debates giving students a fundamental foundation for their

degree Chapter overviews and summaries guide readers through the book and questions for reflection conclude each chapter to test readers knowledge This book is essential reading for all students of social policy and the social sciences as well as those taking joint honours programmes in social work sociology criminology politics and social care Peter Dwyer is Professor of Social Policy at the University of Salford Sandra Shaw is Senior Lecturer in Social Policy at the University of Salford

Narrating Midlife Christine Elizabeth Kiesinger, Lori West Peterson, 2019-04-30 Narrating Midlife Crisis Transition and Transformation is rooted in a discussion about why it is important to address the midlife years in ways that challenge and interrogate the myths that surround this phase of life Although readers are free to construct their own meaning after reading each narrative they are encouraged to attend to the ways in which each narrative reveals how the author grapples with their particular issues communicatively More important readers are invited to see the power of narrative re framing as authors seek to understand interpret and live midlife change s in ways that are empowering and life affirming In this book contributors spin compelling and meaningful narratives about change at midlife The empty nest the surprise discovery of cancer re defining one s life at midlife and re imagining long term commitment after divorce are just some of the topics explored in this book Auto ethnographically crafted the narratives presented throughout the book aim to show how managing and living through change at midlife is very much a communicative endeavor *Learning Disabilities* Bob Gates, Helen

Atherton, 2007-01-01 This title is directed primarily towards health care professionals outside of the United States It is the authoritative textbook for students of learning disabilities covering a wide variety of topics It is relevant not only for nursing courses but also for care workers OTs and other professional and non professional carers The new edition has been completely updated and includes the latest evidence for practice There are new chapters which means the book provides comprehensive coverage of learning disabilities throughout a person s life There are also new contributors including people with learning disabilities Each chapter is supported by information on further reading and other resources **Attachment**
