Lizard From The Park:

Lizard from the Park Mark Pett, 2015-09-08 A lonely boy's new pet grows into a rather large dilemma and a Thanksgiving parade offers an uplifting solution in this charming tale from the author of *The Boy and the Airplane* and *The Girl and the Bicycle*. When Leonard takes a shortcut through the park he finds an egg and takes it home where it hatches into a lizard or so Leonard thinks. Leonard names his new pet Buster and takes him all around the city on the subway to the library to a baseball game and more. But Buster keeps growing and growing and Leonard gets the sense that Buster is longing for something Leonard can't provide. Before long Buster becomes too big to keep and Leonard realizes he needs to set Buster free. So Leonard comes up with an inventive plan, one that involves all the balloons Leonard can find and the annual Thanksgiving parade in an imaginative plot twist that will spark readers' imaginations and touch their hearts.

Lizard Tales Bayard H. Brattstrom, 2018-01-09 *Lizard Tales* People and Events in the Life of a Naturalist consists of stories that I told in my ecology, evolution, ornithology, herpetology, natural history, and general biology classes or around campfires and includes many that have never been told to anyone until now. The book is autobiographical and geographic: Chicago, Hollywood, San Diego, UCLA, Cal Tech, New York, Arizona, and also Australia, Mexico, and Central America. The stories are about animals, fieldwork, people, and weird or exciting events. Because I have met and interacted with many people, there are personal stories about Debbie Reynolds, Natalie Wood, John Steinbeck, Margaret Meade, Cellist Gregory Piatagorsky, Charles Richter, Earthquake Scale U.S. Grant IV, The Emperor of Japan, and artist Charles Russell. Some of the fun stories include playing badminton with the world's champion Cobras, getting loose at UCLA, Nobel Laureates in my class, how I invented the stent, origin of the first elephant race in human history, why salamanders helped Custer lose the Battle of Little Big Horn, the girl that peed with rattlesnakes, sliding off the side of a whale, drinking beer with the Emperor of Japan, can lizards predict earthquakes, three gringos and a dead horse, Costa Rica, and attempted murder using a rattlesnake. *A Guide to the Archaeology Parks of the Upper Midwest* Deborah Morse-Kahn, 2003-07-14 The archaeology enthusiast will find this versatile guide contains a treasure trove of information. A generous collection of black and white photos are scattered throughout this handy book along with detailed maps, lodging and dining suggestions, and a broad listing of additional local points of interest. The volume's brief introductory chapters offer an overview of the archaeology of the Upper Midwest and explore the symbols and meanings of intricate rock art and effigy mounds. Eighty-five dedicated archaeology parks exist in Minnesota, Wisconsin, Iowa, and northern Illinois. Wisconsin alone contains sixty-three of these outstanding parks. From Effigy National Monument in Iowa to the privately held Henschel Mounds in Wisconsin, this magnitude of managed sites is exceeded only by the abundance of archaeology sites found in the American Southwest. *Inventory of Amphibians and Reptiles at Manzanar National Historic Site, California* Trevor B.
