Gump, 2025-06-17 In accessible supportive action-oriented prose this how-to book contextualizes the writing of scholarly book reviews for scholars and advanced students in the humanities and narrative social sciences. It offers step-by-step instructions for identifying potential books for review and suitable venues for reviews, reading books for scholarly review, and writing scholarly reviews worthy of being considered scholarly contributions in their own right, namely reviews that offer contextualized arguments, clear analyses, and cogent assessments. Underscoring *The Book Review Book* is the conviction that scholarly book reviews provide opportunities for exploration of and engagement with disciplinary ideas and conversations. Although the book focuses on single-authored reviews of scholarly monographs, it also offers strategies for reviewing edited volumes, anthologies, and reference works; writing review essays; and coauthoring reviews. The book also addresses how the composition of scholarly book reviews intersects with the craft of writing and how the skills can translate to pre-publication peer reviewing and post-publication book reviewing for popular media, as well as how the writing of scholarly book reviews can and should be taught in the college and university classroom.

Quarterly Book Review, 1897 *National Review's Literary Network* Stephen Schryer, 2024 Stephen Schryer traces the careers of novelists, journalists, and literary critics who wrote for William F. Buckley Jr.'s *National Review* and highlights these writers' enduring impact on movement conservatism. *Books of the Century* Charles McGrath, 1998 More than one hundred years of book reviews and essays on literature from the pages of *The New York Times Book Review*. *The Routledge Companion to Australian Literature* Jessica Gildersleeve, 2020-12-22 In recent years, Australian literature has experienced a revival of interest both domestically and internationally. The increasing prominence of work by writers like Christos Tsiolkas, heightened through television and film adaptation, as well as the award of major international prizes to writers like Richard Flanagan and the development of new high-profile prizes like the Stella Prize, have all reinvigorated interest in Australian literature both at home and abroad. This Companion emerges as a part of that reinvigoration, considering anew the history and development of Australian literature and its key themes, as well as tracing the transition of the field through those critical debates. It considers works of Australian literature on their own terms, as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres. With an emphasis on literature's responsibilities, this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with, produces, and is produced by its context, provoking a critical re-evaluation of the concept of the relationship between national literatures, cultures, and histories, and the social function of literary texts.
