Songs from the Sky Von Del Chamberlain, John B. Carlson, M. Jane Young, 2005 This substantial collection of papers on indigenous astronomical knowledge is quite unequalled in its scope and extent The authors are drawn from a variety of academic disciplines including anthropology archaeology astronomy engineering art history history of science history of religion folklore and mythology and bring a variety of academic perspectives to bear upon aspects of celestial knowledge and perception in diverse social contexts from many different parts of the globe The Americas provide the main geographical focus with twenty of the 32 papers concerning indigenous north American groups such as the Navajo Lakota Zuni and Blackfoot the Mixe and Tzotzil Maya of southern Mexico the Andean highlands and the Amazonian region of Peru and southern coastal Brazil The remaining twelve articles extend to the Arab world sub Saharan Africa southern India Java Melanesia Australia and Polynesia with a few addressing broader synthetic themes For a number of the culture areas dealt with in some detail here other published information about sky knowledge is extremely scant **Animal** DK, 2017-09-12 View the animal kingdom up close as never before in this breathtaking title which has already sold over 1 5 million copies Written by 70 specialists it features stunning wildlife photography of more than 2000 of the world s most important wild mammals birds reptiles amphibians and insects With around two million species identified to date animals are the dominant and most varied form of life on the planet Animal presents a representative selection ranging from the giant baleen whale to fast moving predators such as sharks big cats and birds of prey as well as microscopic beetles barely 1mm long and other insects It presents some of the latest species to be described meet the cute but elusive olinguito from South America which was only identified in 2013 or the skywalker hoolock gibbon that was named after a Star Wars character in 2017 Animal also explains how the earth s biodiversity is in sharp decline and the conservation projects underway to safeguard precious species For each one it gives a locator map and statistics including its conservation status For anyone who wants a reliable and enthralling reference in which you can find the answers to everything from why zebras are striped or how the sunbear got its name Animal is your essential one stop guide *The "Put Me in My Little Bed" Joker, Etc* , 1870 *Tambo* Julia

Meyerson,2010-07-05 Perhaps the best way to sharpen one's powers of observation is to be a stranger in a strange land Julia Meyerson was one such stranger during a year in the village of Tambo Peru where her husband was conducting anthropological fieldwork Though sometimes overwhelmed by the differences between Quechua and North American culture she still sought eagerly to understand the lifeways of Tambo and to find her place in the village Her vivid observations recorded in this field journal admirably follow Henry James's advice Try to be one of the people upon whom nothing is lost With an artist's eye Meyerson records the daily life of Tambo the cycles of planting and harvest the round of religious and cultural festivals her tentative beginnings of friendship and understanding with the Tambinos The journal charts her progress from tolerated outsider to accepted friend as she and her husband learn and earn the roles of daughter and son in their adopted family With its wealth of ethnographic detail especially concerning the lives of Andean women Tambo will have great value for students of Latin American anthropology In addition scholars preparing to do fieldwork anywhere will find it a realistic account of both the hardships and the rewards of such study *Frommer's?
