## **Liturgy And The Moral Self Liturgy And The Moral Self:**

**Liturgy and the Moral Self** Bruce T. Morrill, 1998 Liturgical theologian Don Saliers published an essay in 1979 challenging both the Church's and the theological academy's understanding of the relationship of liturgy and ethics *Liturgy and the Moral Self* features Saliers' provocative essay, an introductory chapter, and sections on liturgical theology, the formation of character, and words and music, each with a single-page introduction to the chapters that follow [Jewish Liturgical Reasoning](#) Steven Kepnes, 2007-11-01 Liturgy, a complex interweaving of word, text, song, and behavior, is a central fixture of religious life in the Jewish tradition. It is unique in that it is performed and not merely thought. Because liturgy is performed by a specific group at a specific time and place, it is mutable. Thus, liturgical reasoning is always new, and understandings of liturgical practices are always evolving. Liturgy is neither preexisting nor static; it is discovered and revealed in every liturgical performance. *Jewish Liturgical Reasoning* is an attempt to articulate the internal patterns of philosophical, ethical, and theological reasoning that are at work in synagogue liturgies. This book discusses the relationship between internal Jewish liturgical reasoning and the variety of external philosophical and theological forms of reasoning that have been developed in modern and post-liberal Jewish philosophy. Steven Kepnes argues that liturgical reasoning can reorient Jewish philosophy and provide it with new tools, new terms of discourse and analysis, and a new sensibility for the twenty-first century. The formal philosophical study of Jewish liturgy began with Moses Mendelssohn and the modern Jewish philosophers. Thus, the book focuses in its first chapters on the liturgical reasoning of Moses Mendelssohn, Hermann Cohen, and Franz Rosenzweig. However, it attempts to augment and further develop the liturgical reasoning of these figures with methods of study from Hermeneutics, Semiotic theory, post-liberal theology, anthropology, and performance theory. These newer theories are enlisted to help form a contemporary liturgical reasoning that can respond to such events as the Holocaust, the establishment of the State of Israel, and interfaith dialogue between Jews, Christians, and Muslims.

*German-Jewish Thought Between Religion and Politics* Christian Wiese, Martina Urban, 2012-03-30 Since the Enlightenment period, German Jewish intellectuals have been prominent voices in the multi-faceted discourse on the reinterpretation of Jewish tradition in light of modern thinking. Paul Mendes-Flohr, one of the towering figures of current scholarship on German Jewish intellectual history, has made invaluable contributions to a better understanding of the religious, cultural, and political dimensions of these thinkers' encounter with German and European culture, including the tension between their loyalty to Judaism and the often-competing claims of non-Jewish society and culture. This volume assembles essays by internationally acknowledged scholars in the field who intend to honor Mendes-Flohr's work by portraying the abundance of religious, philosophical, aesthetic, and political aspects dominating the thinking of those famous thinkers populating German Jewry's rich and complex intellectual world in the modern period. It also provides a fresh theoretical outlook on trends in Jewish intellectual history, raising new questions concerning the dialectics of assimilation. In

addition to that the volume sheds light on thinkers and debates that hitherto have not been accorded full scholarly attention

*Christ's Gift, Our Response* Benjamin M. Durham, 2015 Sacramental theology has often been a challenging area of conversation between Catholics and Protestants In *Christ's Gift Our Response* Benjamin Durham envisions a collaborative way forward forging a conversation between two contemporary approaches to the connection between sacraments and ethics Drawing primarily from Louis Marie Chauvet and the Finnish school of Luther interpretation Durham constructs a mutually enriching theological dialogue Beyond comparison and contrast this is an attempt to draw these theologies together as sources for each other rather than as competitors

**Music for Others** Nathan Myrick, 2021-03-12 This book offers a comprehensive account of what music does in church and directs this insight towards a theology of caring for others in just restorative ways Author Nathan Myrick connects dots between music ethics and theology and urges Christian leaders and communities to carefully consider the relational power of music when designing and attending religious gatherings

**Anamnesis as Dangerous Memory** Bruce T. Morrill, 2000 Anamnesis as Dangerous Memory explores the political theology of Johann Baptist Metz to discover how Christian memory is prophetic both in its revelation of extraordinary circumstances of injustice and the challenge and hope it poses to those who join in solidarity with the oppressed Liturgical theologian Alexander Schmemmann then elaborates how the liturgy reveals the kingdom of God and empowers believers to witness to it The meeting of these theologies results in a rich eschatology a life shaped by the vision of a future that fulfills the promises of the past

**Public Worship and Public Work** Christian Batalden Scharen, 2004 Description In a time of increasing cultural pluralism and vast religious restructuring in the United States Christian social ethics must take account of how values and commitments shape Christian communities In *Public Worship and Public Work* Christian Scharen examines theological claims about the relationship of worship and ethics by means of ethnographic study of the life worship and work of three vibrant congregations *Public Worship and Public Work* moves beyond two caricatures of the relationship between worship and social ethics Rather than resolute portrayals of the Church as a reflection of its culture and context and causal accounts of the Church's liturgy forming a Christian witness over and against culture this book lifts up congregational identity as an area of dynamic interaction between worship social ethics and culture Chapters in Part One are Liturgy and Social Ethics Characterizing a Debate and Sociologizing the Debate Identity Ritual and Public Commitment Chapters in Part Two Three Case Studies in Atlanta's Old Downtown are People Living Church The Catholic Shrine of the Immaculate Conception Jesus Saves Big Bethel African Methodist Episcopal Church and The Church at Work Central Presbyterian Church Part Three concludes with *The World in the Church in the World*

**Worship and Christian Identity** E. Byron Anderson, 2017-04-21 *Worship and Christian Identity* argues that sacramental and liturgical practices are the central means by which a church shapes the faith character and consciousness of its members Consequently for any church to set aside such practices as outdated or irrelevant is to set aside the means by which the church nurtures and sustains its theological

identity From this perspective Anderson explores the following questions What is the relationship between worship and belief What is the relationship between corporate worship and the formation of Christian persons and communities What is the relationship between worship and our knowledge of ourselves our world and God How might our attention to the reform and renewal of worship and sacramental practice provide a framework for theological evangelical and sacramental renewal Questions of sacramental practice inclusive or transformative language and the renewal of congregational hymnody have been largely displaced by marketing questions and conflicts between traditional and contemporary worship The hour of worship is subdivided now into increasingly specialized target audiences of singles seekers boomers and X ers with worship carefully packaged as traditional or contemporary What at various points has been understood as a means of grace is now seen primarily as a means of numerical growth Missing in the conflict between traditional and contemporary worship is significant discussion of what is at stake for the identity of Christian persons and communities in the shape and practice of worship Perhaps more surprising discussion of the theological shape and practice of worship also has been absent in discussions concerning theological standards These absences suggest that for many in the church today worship is a means for expressing a community s belief but has little to do with the shape and character of that belief The assumption that worship is only or primarily a pragmatic means for expressing a community s belief stands in sharp contrast to the Christian tradition This assumption also contrasts with the insights provided by recent work in ritual studies psychology and faith development Worship and Christian Identity is an important book for faculty and students in seminary and graduate programs in liturgical studies and religious education particularly those interested in the relationships between liturgical studies and practical theology ritual studies and liturgical theology as well as the role of worship in Christian formation Chapters are Making Claims About Worship Worship as Ritual Knowledge Worship as Ritual Practice Trinitarian Grammar and the Christian Self Trinitarian Grammar and Liturgical Practice and A Vision of Christian Life

**Speaking with Aquinas** David Farina Turnbloom,2017-02-01 According to Thomas Aquinas the Eucharist is meant to build up the unity of the church This desired ecclesial unity is however not often given adequate treatment In Speaking with Aquinas David Farina Turnbloom seeks to describe the relationship between the celebration of the Eucharist and the unity of the church By examining Aquinas s treatment of grace and virtues this book allows the reader to understand Aquinas s eucharistic theology within the context of the spiritual life of the church In the end Turnbloom retrieves a Thomistic theology of the Eucharist that arises from Aquinas s concern for the virtuous life of the church rather than a eucharistic theology that too narrowly focuses on theories of transubstantiation

**Transforming Our Human Forms into Christ's** Reverend Paul Engoulou Nsong,2012-10-23 Are you puzzled by the nature and system of Aidan Nicholss theological contribution Are you looking for a way to renew your appreciation for Nicholss theological activity Do you want to clarify your understanding of Nicholss anthropological view Father Engoulou Paul discusses these and many others interesting matters in this book He carefully

analyzes the different layers on which Nichols posits his philosophical and theological principles of order. He explains historically each foundational step from which Nichols draws his public doctrine of man and God. He arrives at the conclusion that man arrives at a self-knowledge and the knowledge of God to the extent that he makes use of practical liturgical and rational concepts and forms embedded in Philosophy, theology, and visual art. Designed to be primarily a scholarly treatment of God's evidences into the personal-communal nature of man and the meaning of his life-work, this book is also a critical treatment of secularism and its attendants: liberalism, relativism, and positivism.

Ways of Living Religion Christina M. Gschwandtner, 2024-03-14. This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion.

Reading Religious Ritual with Ricoeur Christina M. Gschwandtner, 2021-08-20. Reading Religious Ritual with Ricoeur: Between Fragility and Hope creates a dialogue between Ricoeur's hermeneutic philosophy and the interpretation of human ritual practices, especially as such practices are manifested within the context of Christian liturgy. In the first part of the book, Christina M. Gschwandtner shows that Ricoeur's account of religion would be deepened if it were to take into account not only the biblical texts but also forms of liturgical expression and ritual actions. She challenges Ricoeur's early reading of the symbol and secondarily broadens his interpretation of biblical texts and faith to consider religious actions more fully and suggests that ritual can enhance human capacities. The second part of the book employs Ricoeur's hermeneutics in order to shed light on the analysis of liturgy, demonstrating that his accounts of truth, of the world, of the text, of religious language, of the imagination, and of the formation of identity are all eminently applicable to liturgical experience. Reading Religious Ritual with Ricoeur shows that one of the most significant themes in Ricoeur's work, the tension between fragility and hope, is especially helpful for understanding what liturgy does and how it functions. Seeing how liturgy and ritual configure fragility and hope also enriches Ricoeur's account of the role and function of religion in human experience.

**T&T Clark Handbook of Christian Ethics** Tobias Winright, 2020-12-10. The T&T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics, its sources, methods, and applications. With contributions by theological ethicists known for their excellence in scholarship and teaching, the essays in this volume offer fresh perspectives and an agenda for the discipline of Christian ethics in the 21st century. The essays are organized in three sections following an introduction that presents the four-font approach and elucidates why it is critically employed through these subsequent sections. The first section explores the sources of Christian ethics, including each of the four fonts: scripture, tradition, experience, and reason. The second section examines fundamental or basic elements of Christian ethics and covers different methods, approaches, and voices in doing Christian ethics, such as natural law, virtue ethics, conscience, responsibility, narrative, worship, and engagement with other religions. The third section addresses current moral issues in politics, medicine, economics, ecology, criminal justice, and other related spheres from the perspective of Christian ethics, including war, genetics, neuroethics, end-of-life decisions, marriage, family, work, sexuality, nonhuman animals, migration, aging, policing, incarceration, capital punishment, and more.

**Catholic Social Learning, Expanded Edition** Roger Bergman, 2023-12-20 The award winning and widely read first edition of Catholic Social Learning Educating the Faith That Does Justice published in 2011 described the critical edge of the tradition of justice pedagogy in Catholic higher education at the end of the first decade of the twenty first century But living traditions change in response to new challenges and develop their own resources more fully The most obvious and compelling development in recent years has been the publication in 2015 of Pope Francis landmark encyclical Laudato Si On Care for Our Common Home the occasion for the new chapter length afterword to this expanded edition of Catholic Social Learning The urgent imperative to defend creation is a major but not the only reason for a new edition Two new chapters on the many forms of shame as a pedagogical issue and on the Book of Job and belief in a just world add spiritual and theological depth to the original assessment of more than a decade ago Those three additions comprise the totally new Part IV The Critical Edge of the Tradition A new preface sets the argument in the context of current controversies over the place of painful emotions in educational settings

**What's Worship Got to Do with It?** Cláudio Carvalhaes, 2018-11-09 This book connects the living realms of the church the self the neighbor and the world It envisions our daily local and global life from liturgical spaces places where Christians worship God Through these relations we can connect worship with economy preaching with raising a village baptism with forms of citizenship ecology and the market Easter with immigration liturgical knees with colonization spirituality with minority voices all uttering prayers that name racism poverty and a liberation theology of glory In these pages Claudio Carvalhaes issues a call to the churches to move from captive and colonized spaces into where the Spirit lives among the poor the needy the forgotten With a variety of relations between the Christian faith and our cultural ways of living Carvalhaes offers new liturgical and theological imaginings to be engaged with the most vulnerable in our societies and the earth A creative liturgical theology of liberation that makes sense of God between the world and the table altar between the pulpit and local communities the worship space and our multiple lived experiences For liturgy is an endless song of liberation This book is a call to life

Evangelical versus Liturgical? Melanie Ross, 2014-07-02 Why is there such a deep divide between evangelical and liturgical churches especially when it comes to worship How did this unfortunate evangelical liturgical dichotomy develop and what can be done about it In this book Melanie Ross draws on historical analysis systematic theology and the worship life of two vibrant congregations to argue that the common ground shared by evangelical and liturgical churches is much more important than the differences that divide them As a longtime evangelical church member who is at the same time a teacher of liturgical studies Ross is well qualified to address this subject and she does so with passion and intelligence Evangelical versus Liturgical is an important addition to the scant literature explaining nondenominational worship practices to those from more historically established liturgical traditions
