Livermore Images Of America

John W. Day, Charles Hall

Livermore Images Of America:

Summer by the Seaside Bryant Franklin Tolles, 2008 A sweeping richly illustrated architectural study of the large historic New England coastal resort hotels America's Most Sustainable Cities and Regions John W. Day, Charles Hall, 2016-01-23 This book takes you on a unique journey through American history taking time to consider the forces that shaped the development of various cities and regions and arrives at an unexpected conclusion regarding sustainability From the American Dream to globalization to the digital and information revolutions we assume that humans have taken control of our collective destinies in spite of potholes in the road such as the Great Recession of 2007 2009 However these attitudes were formed during a unique 100 year period of human history in which a large but finite supply of fossil fuels was tapped to feed our economic and innovation engine Today at the peak of the Oil Age the horizon looks different Cities such as Los Angeles Phoenix and Las Vegas are situated where water and other vital ecological services are scarce and the enormous flows of resources and energy that were needed to create the megalopolises of the 20th century will prove unsustainable Climate change is a reality and regional impacts will become increasingly severe Economies such as Las Vegas which are dependent on discretionary income and buffeted by climate change are already suffering the fate of the proverbial canary in the coal mine Finite resources will mean profound changes for society in general and the energy intensive lifestyles of the US and Canada in particular But not all regions are equally vulnerable to these 21st century megatrends Are you ready to look beyond America's Most Livable Cities to the critical factors that will determine the sustainability of your municipality and region Find out where your city or region ranks according to the forces that will impact our lives in the next years and decades Find out how resource availability and ecological services shaped the modern landscape emerging megatrends will make cities and regions more or less livable in the new century your city or region ranks on a sustainability map of the United States urban metabolism puts large cities at particular risk sustainability factors will favor economic solutions at a local rather than global level these principles apply to industrial economies and countries globally This book should be cited as follows J Day C Hall E Roy M Moersbaecher C D Elia D Pimentel and A Yanez 2016 America's most sustainable cities and regions Surviving the 21st century megatrends Springer New York 348 p **Daily Lives of Civilians in Wartime Early America** David S. Heidler, Jeanne T. Heidler, 2007-01-30 While soldiers were off fighting on the fields of war civilians on the home front fought their own daily struggles sometimes removed from the violence but often enough from deep within the maelstrom of conflict Chapters provide readers with an excellent detailed description of how women children slaves and Native Americans coped with privation and looming threat and how they often used or tried to use periods of turmoil to their own advantage While it is the soldiers who are often remembered for their strength honor and courage it is the civilians who keep life going during wartime This volume presents the lives of these brave citizens during the early colonial era the American Revolution the War of 1812 the Mexican War and the Civil War This volume begins with Armstrong Starkey's

detailed description of wartime life during the American Colonial era beginning with the Jamestown VA settlement of 1607 Among his discussions of civilian lives during the Pequot War King Philip s War and the Seven Years War Starkey also examines Native American attitudes regarding war Puritan lives and Salem witchcraft and its connection to war Wayne E Lee continues with his chapter on the American Revolution investigating how difficult it was for civilians to choose sides including a telling look at soldier recruitment strategies He also surveys how inflation and shortages adversely affected civilians in addition to disease women s roles slaves and Native Americans as civilians Richard V Barbuto discusses the War of 1812 taking a close look at life on the ever expanding frontier rural homes and families and jobs and education in city life Gregory S Hospodor observes American life during the Mexican War examining how that conflict amplified domestic tensions caused by sharply divided but closely held beliefs about national expansion and slavery Continuing James Marten looks at southern life in the South during the Civil War examining the constant burden of supporting Confederate armies or coping with invading northern ones Paul A Cimbala concludes this volume with a look at northerner s lives during the Civil War offering an outstanding essay on a home front mobilized for a titanic struggle and how the war no matter how remote became omnipresent in daily life *Library of Congress Catalog: Motion Pictures and Filmstrips* Library of Congress,1968
