My Word! Susan D. Blum, 2011-06-15

Classroom Cheats Turn to Computers Student Essays on Internet Offer Challenge to Teachers Faking the Grade Headlines such as these have been blaring the alarming news of an epidemic of plagiarism and cheating in American colleges more than 75 percent of students admit to having cheated 68 percent admit to cutting and pasting material from the Internet without citation Professors are reminded almost daily that many of today's college students operate under an entirely new set of assumptions about originality and ethics Practices that even a decade ago would have been regarded almost universally as academically dishonest are now commonplace Is this development an indication of dramatic shifts in education and the larger culture In a book that dismisses hand wringing in favor of a rich account of how students actually think and act Susan D Blum discovers two cultures that exist often uneasily side by side in the classroom Relying extensively on interviews conducted by students with students My Word presents the voices of today's young adults as they muse about their daily activities their challenges and the meanings of their college lives Outcomes based secondary education the steeply rising cost of college tuition and an economic climate in which higher education is valued for its effect on future earnings above all else These factors each have a role to play in explaining why students might pursue good grades by any means necessary These incentives have arisen in the same era as easily accessible ways to cheat electronically and with almost intolerable pressures that result in many students being diagnosed as clinically depressed during their transition from childhood to adulthood However Blum suggests the real problem of academic dishonesty arises primarily from a lack of communication between two distinct cultures within

the university setting On one hand professors and administrators regard plagiarism as a serious academic crime an ethical transgression even a sin against an ethos of individualism and originality Students on the other hand revel in sharing in multiplicity in accomplishment at any cost Although this book is unlikely to reassure readers who hope that increasing rates of plagiarism can be reversed with strongly worded warnings on the first day of class *My Word* opens a dialogue between professors and their students that may lead to true mutual comprehension and serve as the basis for an alignment between student practices and their professors expectations

Uzoukwu, 2019-10-10 It is in honour of the silver jubilee of Most Rev Anthony J V Obinna's episcopacy that this book is put together in this first volume titled *Emerging Conversations on Theofiliation: Essays in Honour of Archbishop Anthony J V Obinna*. This volume discusses and enlarges insights inherent in Archbishop Obinna's theological thinking on theofiliation. Therefore the contributors to this volume critically examine his idea of theofiliation from their areas of speciality as a further exploration of this theological term. The willingness of the contributors has resulted in a collection that envisage the eclectic and heterogeneous scholarly vision of its honouree. Besides the contributors to this maiden edition encompass both illustrious theologians and promising researchers in theology, philosophy, psychology and management. The themes discussed by the contributors are grouped into biblical comparative study, systematic pastoral, ethical management, philosophical, political and anthropological issues. The enriching and diverse collections of this volume have five thematic sections of nineteen chapters that theofiliation brings together. This Festschrift in honour of Amarachi Obinna is a compendium of usable knowledge. The authors have dealt with various themes largely inspired by the theology and practice of the archbishop. This conviction leads to the reflections on theofiliation, the rein-Godment of all creation. The Festschrift is truly a treasure. Prof John Obilor Imo State University Owerri. This book is an insightful reading which will serve as an inspirational theological wellspring for emerging scholars engaged in articulating a robust African contextual theology to which it breathes fresh air. The spirit of dynamism in Archbishop Obinna's novel brainchild of theofiliation is manifested in its applicability to wide-ranging academic disciplines. William Odeke Owire, KU Leuven Becoming Mexipino Rudy P. Guevarra, Jr., 2012-05-09 *Becoming Mexipino* is a social historical interpretation of two ethnic groups: one Mexican, the other Filipino, whose paths led both groups to San Diego, California. Rudy Guevarra traces the earliest interactions of both groups with Spanish colonialism to illustrate how these historical ties and cultural bonds laid the foundation for what would become close interethnic relationships and communities in twentieth-century San Diego as well as in other locales throughout California and the Pacific West Coast. Through racially restrictive covenants and other forms of discrimination, both groups regardless of their differences were confined to segregated living spaces along with African Americans, other Asian groups and a few European immigrant clusters. Within these urban multiracial spaces, Mexicans and Filipinos coalesced to build a world of their own through family and kin networks, shared cultural practices, social organizations and music and other forms of entertainment. They occupied the same living spaces, attended the same Catholic churches and worked together creating labor cultures that reinforced their ties, often fostering marriages. Mexipino children living simultaneously in two cultures have forged a new identity for themselves. Their lives are the lens through which these two communities are examined, revealing the ways in which Mexicans and Filipinos interacted over generations to produce this distinct and instructive multiethnic experience. Using

archival sources oral histories newspapers and personal collections and photographs Guevarra defines the niche that this particular group carved out for itself
