Teachers and parents can either encourage this natural inquisitiveness or squelch it. There is joy in the classroom when children learn not to take a test, not to get a grade, not to compete with each other, and not to please their parents or their teachers, but because they want to know about the world around them. Both Christian educators and parents will find proven help in creating a positive learning atmosphere through methods pioneered by Charlotte Mason that show how to develop a child's natural love of learning. The professional educators, administrators, and Mason supporters contributing to this volume give useful applications that work in a variety of educational settings, from Christian schools to homeschools. A practical follow-up to Crossway's *For the Children's Sake*, this book follows a tradition of giving serious thought to what education is so that children will be learning for life and for everlasting life. Educating Persons: An Introduction to Charlotte Mason's Twenty Principles Amy Fischer, 2024-03-14 Charlotte Mason didn't give a to-do list for educating children; she gave principles to guide the way. These principles show us the big picture of the Charlotte Mason method: what a child is, how the mind works, what tools we can use, and where we are trying to go. Reading the principles as a long list, however, can be overwhelming and confusing. *Educating Persons* takes each principle one by one and points you to both their meanings as well as how they all fit together. In this short book, you'll find a principle-by-principle discussion of Charlotte Mason's foundational ideas, recommendations for further study from Charlotte Mason, and

modern writers Real life examples and encouragement for your education journey Whether you are first exploring the Charlotte Mason philosophy or have been applying for a while deepen your understanding and refresh your perspective as you bring her ideas to life
