Living Homes Sustainable Architecture And Design:

Living Homes Suzi Moore, Nora Burba Trulsson, 2001-04 Profiles more than twenty residences and other structures built in natural design style with adobe rammed earth straw bale and reinvented materials presenting color photos and the stories of their architects and owners

New Eco Homes Manel Gutierrez, 2015-11-10 A stunning full color showcase of the latest innovations in sustainable architecture and eco friendly design featuring thirty five diverse homes Today's architects designers building craftsman and homeowners are becoming more environmentally conscious choosing eco friendly living spaces with small carbon footprints that are built with sustainable materials New Eco Homes explores various aspects of modern eco design from its environmental and economical benefits to factors considered when choosing materials how much energy went into manufacturing the product whether it is long lasting and whether it can be recycled or safely disposed of as it eventually breaks down It also examines important details involved in building such as climate regulation drainage systems and regional planning Each of the thirty five projects contain photographs floor plans and detailed drawings that illustrate certain sustainable features revealing how much the parameters of ecological design have expanded in just a few short years New Eco Homes includes an introductory interview with an international specialist in green building site plans architectural drawings and a complete directory of resources Combining concern for the environmental with aesthetic sensibility it is an essential resource for architects designers and homeowners interested in creating warm and inviting homes that are not only beautiful to inhabit but help protect and conserve our natural environment as well

New Sustainable Homes James Grayson Trulove, 2006-12-12 What makes a sustainable house a sustainable home NEW SUSTAINABLE HOMES will address that question by presenting a wide range of projects where the architect and client have made a conscientious effort to incorporate sustainability into the design of the home and construction materials used in its execution The result is a home that is less toxic to live in is cheaper to operate and often gives back to the environment rather than taking away Also and this is the most important consideration for many it is a great looking highly livable home that not only retains its value but has been shown to increase in value more quickly than more conventionally conceived houses because of cheaper operating expenses These designers and their clients are not on the fringe NEW SUSTAINABLE HOMES will show readers will learn about the many materials and techniques that make up today's sustainable house including 1 the use of pervious concrete on driveways that allows water to seep through to the water table below 2 using bio fiber panels in lieu of plywood for interior finishing 3 using organic green roofs that improve insulation absorb sound and manage storm water runoff 4 solar water heating systems 5 use of high thermal performance windows 6 photovoltaic electrical systems

Sustainable Homes James Grayson Trulove, 2004-03-30 Sustainable Homes puts to rest the stigma that green architecture is unattractive and unsuitable for residential architecture For the houses shown in this volume represent design equal to or superior to most conventional houses Each of these eco houses is unique Some tread lightly on the site by nestling into the land Others are

designed to be extremely well suited to the climactic zones in which they are built Many use materials that do no harm to the environment materials that are recycled salvaged or harvested The houses featured in Sustainable Homes are designed by today s top architects such as Obie Bowman Fernau and Hartman Hanrahan and Meyers and Lake Flato They reveal how much the parameters of ecological design have expanded in just a few short years Over two dozen individual houses are featured from locations as diverse as a Canadian cove to the Arizona desert from Kansas plains to the Norwegian coast from California bluffs to South Carolina wetlands each described through descriptions photographs plans drawings and schematics

Eco Living Japan Deanna MacDonald,2016-02-09 Features include an interesting use of light different types of wood asymmetrical designs and balance and a harmonious mixture of the old and new This is much more than solar panels on roofs and recycled materials HaikuGirl s Japan blog **Living Homes** Suzi Moore,Suzi Moore McGregor,Nora Burba Trulsson,2008-02-06 Profiles more than twenty residences and other structures built in natural design style with adobe rammed earth straw bale and reinvented materials presenting color photos and the stories of their architects and owners
