Living with Complexity Donald A. Norman, 2016-02-12 Why we don't really want simplicity and how we can learn to live with complexity If only today's technology were simpler It's the universal lament but it's wrong In this provocative and informative book Don Norman writes that the complexity of our technology must mirror the complexity and richness of our lives It's not complexity that's the problem it's bad design Bad design complicates things unnecessarily and confuses us Good design can tame complexity Norman gives us a crash course in the virtues of complexity Designers have to produce things that tame complexity But we too have to do our part we have to take the time to learn the structure and practice the skills This is how we mastered reading and writing driving a car and playing sports and this is how we can master our complex tools Complexity is good Simplicity is misleading The good life is complex rich and rewarding but only if it is understandable sensible and meaningful

Living With Contradiction Richard Parr, We like to imagine life as coherent consistent and logical Yet beneath the surface contradictions pulse everywhere we long for freedom but crave security pursue truth while clinging to comforting illusions and seek connection even as we guard our solitude In Living With Contradiction Richard Parr invites us to consider contradiction not as a flaw to be resolved but as a vital part of being human Drawing on philosophy literature and everyday experience he shows how embracing paradox can deepen our understanding of ourselves and the world Rather than forcing harmony where it cannot exist Parr suggests that learning to dwell with contradiction can bring resilience creativity and even peace This is a meditation on complexity a reminder that the richest lives are not those that erase contradictions but those that learn to live within them To be human is to be unresolved and that may be our greatest strength
