The Ecology of Social Behavior C. N. Slobodchikoff, 2013-10-22 The Ecology of Social Behavior explores the relationships between ecology and the origins and maintenance of social behavior The chapters in this book suggest that a consideration of ecological factors is necessary to any paradigm that tries to explain the origins and maintenance of social behavior Most also suggest that there are some trade offs between ecology genetics and phylogeny in the development and persistence of specific social systems The book is organized into five parts Part I provides an overview of the main themes covered in the present volume Part II contains papers on ecological interactions including variation in group sizes of forest primates group foraging and the origin of monogamy in mammals and fishes Part III examines the ecology of social mammals These include the ecological conditions for philopatry and the relationship of habitat variability to sociality in yellow bellied marmots Part IV focuses on the ecology of social birds while Part V deals with the ecology of social arthropods

Digital Participation through Social Living Labs Michael Dezuanni, Marcus Foth, Kerry Mallan, Hilary Hughes, 2017-08-14 Digital Participation through Social Living Labs connects two largely separate debates On the one hand high speed internet access and associated technologies are often heralded as a means to bring about not only connectivity but also innovation economic development new jobs and regional prosperity On the other hand community development research has established that access by itself is necessary but not sufficient to foster digital participation for the broadest possible range of individuals Edited by leading scholars from the fields of education youth studies urban informatics librarianship communication technology and digital media studies this book is positioned as a link to connect these debates It brings together an international collection of empirically grounded

case studies by researchers and practitioners from diverse backgrounds They advance knowledge that fosters digital participation by identifying the specific digital needs issues and practices of different types of communities as they seek to take advantage of access to digital technologies Collectively these cases propose new ways for enabling residents to develop their digital confidence and skills both at home and in their local community particularly through a social living labs approach The book is organised around key focus areas digital skills enhancement youth entrepreneurship connected learning community digital storytelling community led digital initiatives and policy development Highlights that high speed internet is necessary that high speed internet access is necessary but not sufficient to resolve digital divides and foster social inclusion Brings together international empirically grounded case studies to identify digital needs issues and practices of different communities and contextualises these with expert comment Presents contributions from multiple disciplines with most chapters incorporating more than one disciplinary background Gives insight on the place of the digital in contemporary society Illustrates the innovative potential of social living labs to foster digital learning and participation in a variety of community contexts
