Foremost among the many problems that can compromise a survivor s ability to return to safety are medical problems resulting from parachute descent and landing extreme climates ground combat evasion and illnesses contracted in captivity Many evaders and survivors have reported difficulty in treating injuries and illness due to the lack of training and medical supplies For some this led to capture or surrender Survivors have related feeling of apathy and helplessness because they could not treat themselves in this environment The ability to treat themselves increased their morale and cohesion and aided in their survival and eventual return to friendly forces One man with a fair amount of basic medical knowledge can make a difference in the lives of many Without qualified medical personnel available it is you who must know what to do to stay alive

**Willa Cather and the American Southwest** John N. Swift,Joseph R. Urgo,2002-01-01 The American Southwest was arguably as formative a landscape for Willa Cather s aesthetic vision as was her beloved Nebraska Both landscapes elicited in her a sense of raw incompleteness They seemed not so much finished places as things unassembled more like countries still waiting to be made into a landscape Cather s fascination with the Southwest led to its presence as a significant setting in

three of her most ambitious novels *The Song of the Lark* *The Professor's House* and *Death Comes for the Archbishop* This volume focuses a sharp eye on how the landscape of the American Southwest served Cather creatively and the ways it shaped her research and productivity No single scholarly methodology prevails in the essays gathered here giving the volume rare depth and complexity

*Biology of Gila Monsters and Beaded Lizards* Daniel D. Beck, 2005-07-25 No two lizard species have spawned as much folklore wonder and myth as the Gila Monster *Heloderma suspectum* and the Beaded Lizard *H. horridum* the sole survivors of an ancient group of predacious lizards called the Monstersauria More like snakes on legs monstersaurs are a walking contradiction they are venomous yet don't appear to use their venom for subduing prey their mottled patterns mingle with the broken shadows and textures of their desert and tropical dry forest habitats yet their bright open mouths hiss a bold warning that a nasty bite awaits those who advance further And while Gila Monster venom produces excruciating pain it also contains a peptide that has become a promising new drug for treating type 2 diabetes Perhaps the ultimate paradox is that monstersaurs are among the most famous of lizards yet until quite recently they have remained among the least studied With numerous illustrations stunning color photographs and an up to date synthesis of their biology this book explains why the Monstersauria seems poised to change the way we think about lizards Daniel D Beck who has been investigating Gila Monsters and Beaded Lizards for over 22 years teams up here with award winning wildlife photographer Tom Wiewandt to produce a comprehensive summary of this small but remarkable family of lizards
