Government, politics, power and policy in Australia Andrew Parkinson, 2006 *Government, Politics, Power and Policy in Australia (Custom Edition)* Dennis Woodward, Andrew Parkin, John Summers, 2013-07 This custom edition is specifically published for the University of Southern Queensland *The Australian Study of Politics* R. Australian political system and whether it could be improved **Governance, Politics and the Environment** Maria Francesch-Huidobro, 2008-07-09 In the past two decades research on environmental issues in East and Southeast Asian countries has mainly focused on existing institutional mechanisms of environmental management the establishment of new environmental management structures the introduction of incentives to improve natural capital and foster environmental protection and the culture of environmental or green groups Virtually no rigorous research has been directed into the nature and significance of the existing relationship between government and civil society in individual country studies with specific reference to the environmental policy sector or into how this relationship may be evolving This book explores this connection in Singapore and what causes it to evolve through three case narratives Its rationale is to address this gap in the literature from a governance theory perspective that focuses on state adaptation to the external environment and new forms of coordination and collaboration between government and civil society to tackle new societal problems The application of the governance theory approach to specific case studies is itself a topic that deserves much greater study than what it has so far received **The Politics of Human Rights in Australia** Louise Chappell, John Chesterman, Lisa Hill, 2009-05-28 Australia has traditionally lacked a strong rights culture While fairness and equality have been proudly exalted as trademarks of the national mindset the authors of *The Politics of Human Rights in Australia* argue that these same characteristics may equate to a form of cultural complacency The book offers the first comprehensive account of Australia's protection of human rights from a political science perspective Addressing the key debates surrounding human rights in Australia the authors ask Why are voting rights so critical in the Australian context Should Australia adopt a bill of rights in an age of terror What are Australia's responsibilities to global and regional refugee crises How can reconciliation between indigenous and non-indigenous Australians be facilitated Written by three respected academics at the forefront of their fields *The Politics of Human Rights in Australia* offers clarity and insight into the complex issues surrounding the human rights debate in Australia **The Cambridge Handbook of Social Sciences in Australia** Ian McAllister, Steve Dowrick, Riaz Hassan, 2003-08-07 First published in 2003 *The Cambridge Handbook of Social Sciences in Australia* is a high quality reference on significant research in Australian social sciences The book is divided into three main sections covering the central areas of the social sciences economics political science and sociology Each section examines the significant research in the field placing it within the context of broader debates about the nature of the social sciences and the ways in which institutional changes have shaped how they are defined taught and researched *The Oxford Handbook of Australian Politics* Jenny M. Lewis, Anne Tiernan, 2021 This Handbook provides a comprehensive examination of Australia's distinctive politics both ancient and modern across multidisciplinary subjects It examines the factors that make Australian politics unique and interesting while firmly placing these in the context of the nation's Indigenous and imported heritage and global engagement **The Politics of China's Accession to the World Trade Organization** Hui Feng, 2006 Grounded on a series of first

hand interviews with Chinese government officials this book examines China's accession to the World Trade Organization providing an inside look at Chinese WTO accession negotiations Presenting a systematic political economy model in analyzing Beijing's decision making mechanisms the book argues that China's WTO policy making is a state led leadership driven and top down process Feng explores how China's determined political elite partly bypassed and partly restructured a largely reluctant and resistant bureaucracy under constant pressure from an increasingly globalized international system By addressing China's accession to the WTO from a political analysis perspective the book provides a theoretically informed and intriguing examination of China's foreign economic policy making regime The book highlights contemporary debates relating to state and institutionalist theory and provides new and useful insights into a significant development of this century

Contemporary Politics in Australia Rodney Smith, Ariadne Vromen, Ian Cook, 2012-02-02 A diverse range of experts provide a comprehensive introduction to current theories debates and research in Australian political science Global Commons, Domestic Decisions Kathryn Harrison, Lisa McIntosh Sundstrom, 2010-07-23 Comparative case studies and analyses of the influence of domestic politics on countries climate change policies and Kyoto ratification decisions Climate change represents a tragedy of the commons on a global scale requiring the cooperation of nations that do not necessarily put the Earth's well being above their own national interests And yet international efforts to address global warming have met with some success the Kyoto Protocol in which industrialized countries committed to reducing their collective emissions took effect in 2005 although without the participation of the United States Reversing the lens used by previous scholarship on the topic Global Commons Domestic Decisions explains international action on climate change from the perspective of countries domestic politics In an effort to understand both what progress has been made and why it has been so limited experts in comparative politics look at the experience of seven jurisdictions in deciding whether or not to ratify the Kyoto Protocol and to pursue national climate change mitigation policies By analyzing the domestic politics and international positions of the United States Australia Russia China the European Union Japan and Canada the authors demonstrate clearly that decisions about global policies are often made locally in the context of electoral and political incentives the normative commitments of policymakers and domestic political institutions Using a common analytical framework throughout the book offers a unique comparison of the domestic political forces within each nation that affect climate change policy and provides insights into why some countries have been able to adopt innovative and aggressive positions on climate change both domestically and internationally Responsible Government and the Australian Constitution Benjamin B Saunders, 2023-06-15 This book looks at responsible government under the Australian Constitution It undertakes a detailed examination of the history leading to the incorporation of responsible government into the Constitution examining the political history and constitutional ideas which informed the framers views It draws on this history to develop a theory of responsible government and explore its implications for the interpretation of the Constitution and the structure of modern

government in Australia The book fills a major gap in our knowledge of the intellectual background of the Australian Constitution by explaining the constitutional ideas that have shaped the text and structure of the Australian Constitution It contributes to worldwide debates about constitutional interpretation by showing how rigorous use of history can lead to novel interpretations of constitutions without being tied to the dead hands of the founders *Immigration Policy from 1970 to the Present* Rachel Stevens, 2016-02-19 This book examines national debates on immigration asylum seekers and guest worker programs from 1970 to the present Over the past 45 years contemporary immigration has had a profound impact throughout North America Europe and Australasia yet the admission of ethnically diverse immigrants was far from inevitable In the midst of significant social change policymakers grappled with fundamental questions what is the purpose of immigration in an age of mass mobility Which immigrants should be selected and potentially become citizens and who should be excluded How should immigration be controlled in an era of universal human rights and non discrimination Stevens provides an in depth case study comparison of two settler societies Australia and the United States while drawing parallels with Europe Canada and New Zealand Though contemporary immigration history that focuses on one national setting is well established this book is unique because it actively compares how a number of societies debated vexing immigration policy challenges The book also explores the ideas values and principles that underpin this contentious area of public policy and in doing so permits a broader understanding of contemporary immigration than outlining policies alone European Cooperation in Higher Education Iryna Kushnir, 2025-04-23 The ebook edition of this title is Open Access and freely available to read online Iryna Kushnir examines the perspectives from the four founding higher education stakeholders of the The European Higher Education Area through the lens of rationale choice neoinstitutionalist view of Europeanisation
