

ECONOMICS GRADE 10 NOTES

FROM CHAPTER 9

husbandry and agriculture

9.1.1 Characteristics of the agricultural stage of economic development

- The San and Khoikhoi groups used basic hunting weapons, such as bows and arrows.
- The Nguni and the Sotho groups used implements to till the soil and weapons for hunting and war. They were also herders of cattle, sheep and goats.
- People produced agricultural goods for themselves, seldom to trade.
- There was a little trade, mostly in the form of bartering.
- There were no well-developed markets.
- Most of the economic activity in South Africa was agriculture and hunting.
- There was a small population on large pieces of land.
- Labour was scarce; slaves were imported as extra labour.
- Capital was scarce.
- Most farmers produced almost everything they needed themselves.

9.1.2 Factors promoting economic development in agriculture

- The Dutch could barter with the Khoi and the San for land.
- Plentiful game made hunting easy.
- A small market developed for selling food products to the passing ships.
- The colonial powers protected the markets. For example, Britain taxed imports of French wines to promote sales of wines from the Cape to people in Britain.
- In the Cape, local taxes on imports promoted local production of food. For example, a tax on wheat imports in the 1820s encouraged farmers to grow wheat.
- Improved transport and infrastructure

9.1.3 Factors hampering economic development in agriculture

- Lack of capital.
- Labour was scarce.
- There were few or no schools and other educational institutions; most people had little or no education.
- Most areas had little or no infrastructure.
- The colonial powers often had monopolies in the markets. For example, farmers could only sell their goods to the Dutch East India Company.

The Debt Trap Josh Mitchell, 2021-08-03 AN NPR AND NEW YORK POST BEST BOOK OF THE YEAR From acclaimed Wall Street Journal reporter Josh Mitchell the devastating account The Wall Street Journal of student debt in America In 1981 a new executive at Sallie Mae took home the company's financial documents to review You've got to be shitting me he later told the company's CEO This place is a gold mine Over the next four decades the student loan industry that Sallie Mae and Congress created blew up into a crisis that would submerge a generation of Americans into 1.5 trillion in student debt In *The Debt Trap* Wall Street Journal reporter Josh Mitchell tells the vivid and compelling Chicago Tribune untold story of the scandals scams predatory actors and government malpractice that have created the behemoth that one of its original architects called a monster As he charts the jaw-dropping Jeffrey Selinger New York Times bestselling author of *Who Gets in* and *Why* seventy-year history of student debt in America Mitchell never loses sight of the countless student victims ensnared by an exploitative system that depends on their debt Mitchell also draws alarming parallels to the housing crisis in the late 2000s showing the catastrophic consequences student debt has had on families and the nation's future Mitchell's character-driven narrative is necessary reading The New York Times for anyone wanting to understand the central economic issue of our day

The Decline of America David D. Schein, 2018-02-13 *The Decline of America* offers a carefully documented analysis of the last seventeen U.S. presidents These men eight Democrats and nine Republicans have shaped the last 100 years not only for America but for the world Each president is profiled with unsparing scrutiny so we can see where it's all gone wrong David Schein follows these critiques by proposing ways to improve America's outlook for the next 100 years before it's too late

Teach Janice Koch, 2019-01-02 *Teach* is a concise introduction to education that challenges students' preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium (ITASC) standards correlating with each chapter's content With the guidance of this supportive text students will gain vital exposure by engaging with professional standards from the very start of their career

Corporate Finance Law Louise Gullifer, Jennifer Payne, 2015-10-22 The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law Fully updated it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis One of its distinctive features is that it gives equal coverage to both the equity and debt sides of corporate finance law and seeks where possible to compare the two This book covers a broad range of topics regarding the debt and equity raising choices of companies of all sizes from SMEs to the

largest publicly traded enterprises and the mechanisms by which those providing capital are protected Each chapter analyses the present law critically so as to enable the reader to understand the difficulties risks and tensions in this area of law and the attempts made by the legislature and the courts as well as the parties involved to deal with them This book will be of interest to practitioners academics and students engaged in the practice and study of corporate finance law *The Monopolists* Mary Pilon,2015-02-17 *The Monopolists* reveals the unknown story of how Monopoly came into existence the reinvention of its history by Parker Brothers and multiple media outlets the lost female originator of the game and one man's lifelong obsession to tell the true story about the game's questionable origins Most think it was invented by an unemployed Pennsylvanian who sold his game to Parker Brothers during the Great Depression in 1935 and lived happily and richly ever after That story however is not exactly true Ralph Anspach a professor fighting to sell his Anti Monopoly board game decades later unearthed the real story which traces back to Abraham Lincoln the Quakers and a forgotten feminist named Lizzie Magie who invented her nearly identical Landlord's Game more than thirty years before Parker Brothers sold their version of Monopoly Her game underpinned by morals that were the exact opposite of what Monopoly represents today was embraced by a constellation of left wingers from the Progressive Era through the Great Depression including members of Franklin Roosevelt's famed Brain Trust A gripping social history of corporate greed that illuminates the cutthroat nature of American business over the last century *The Monopolists* reads like the best detective fiction told through Monopoly's real life winners and losers *Subverting Consumerism* Robert Crocker,Keri Chiveralls,2018-07-24 There is now a widespread interest in reuse in many domains from opera houses built over old warehouses to vintage clothes and everyday goods incorporating repurposed materials or parts Despite its ubiquity this extensive creative work is typically seen in narrowly environmental terms as a means of reducing carbon resource use or waste However as this volume shows reuse also has aesthetic and cultural dimensions and a rich social currency invoked to consciously subvert the accelerated consumer culture responsible for our unfolding environmental crisis In three parts the essays in this book consider reuse in terms of values aesthetics and meaning its application in contemporary urban and spatial settings and the revival of social practices involving a more conscious recourse to reuse and repair These are bookended by the editors essays the first on the significant relationship between reuse and technological and social acceleration evident in the surrounding consumer society and the last on the multiple forms of reuse deployed in a contemporary alternative building practice and their contributions to presenting alternative ways of living in the world Challenging dominant understandings of waste and consumption *Subverting Consumerism* shows how reuse has become a means for many to creatively engage with the past and to discover a continuity and sense of place eroded by the accelerative regimes of contemporary consumerism Becoming a means of resistance and offering a range of aesthetic social and economic possibilities reuse can be found to subvert and challenge the obsessive quest for the new found in contemporary consumerism *Capital and the Common Good* Georgia Levenson

Keohane,2016-09-27 Despite social and economic advances around the world poverty and disease persist exacerbated by the mounting challenges of climate change natural disasters political conflict mass migration and economic inequality While governments commit to addressing these challenges traditional public and philanthropic dollars are not enough Here innovative finance has shown a way forward by borrowing techniques from the world of finance we can raise capital for social investments today Innovative finance has provided polio vaccines to children in the DRC crop insurance to farmers in India pay as you go solar electricity to Kenyans and affordable housing and transportation to New Yorkers It has helped governmental commercial and philanthropic resources meet the needs of the poor and underserved and build a more sustainable and inclusive prosperity Capital and the Common Good shows how market failure in one context can be solved with market solutions from another an expert in securitization bundles future development aid into bonds to pay for vaccines today an entrepreneur turns a mobile phone into an array of financial services for the unbanked and policy makers adapt pay for success models from the world of infrastructure to human services like early childhood education maternal health and job training Revisiting the successes and missteps of these efforts Georgia Levenson Keohane argues that innovative finance is as much about incentives and sound decision making as it is about money When it works innovative finance gives us the tools motivation and security to invest in our shared future A Guide to Asian High Yield Bonds Florian H. A.

Schmidt,2014-01-28 An up to date comprehensive analysis of the high yield bond market in Asia Beginning with a general definition of high yield bond products and where they reside within the corporate capital structure this newly updated guide looks at the development of high yield bonds in the United States and Europe before analysing this sector in Asia It covers issuer countries and industries ratings and size distributions and also covers the diversification of the high yield issuer universe It includes a thorough technical analysis of high yield bond structures commonly employed in Asian transactions including discussion of the respective covenants and security packages that vary widely across the region Chapters and sections new to this edition cover such subjects as high yield bond restructuring the new high yield Dim Sum market and the high yield placement market shutdown of 2008 2009 Finally the book looks at the new characteristics of Asian economies for indicators on how the high yield market will develop there are the near future Offers an extremely detailed analysis of Asia s high yield bond market Features new and updated material including new coverage of the key differences between Asian structures and United States structures Ideal for CFOs of companies contemplating high yield issuance as well as investment bankers bank credit analysts portfolio managers and institutional investors **The Russian State and Russian Energy Companies, 1992-2018**

Ingerid M. Opdahl,2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia s foreign policy in the post Soviet region The book argues that the development of Russia s political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence

foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

The Fisher Body Craftsman's Guild John L. Jacobus, 2013-07-15 The Fisher Body Craftsman's Guild was a national auto design competition sponsored by the Fisher Body Division of General Motors This competition was for teenagers to compete for college scholarships by designing and building scale model dream cars Held from the 1930s through the 1960s it helped identify and nurture a whole generation of designers and design executives Virgil M Exner Jr Charles M Jordan Robert W Henderson Robert A Cadaret Richard Arbib Elia Russ Russinoff Galen Wickersham Ronald C Hill Edward F Taylor George R Chartier Charles W Pelly Gary Graham Charles A Gibilterra E Arthur Russell William A Moore Terry R Henline Paul Tatseos Allen T Weideman Kenneth J Dowd Stuart Shuster John M Mellberg Harry E Schoepf and Ronald J Will are among those designers and design executives who participated in the Guild The book also describes many aspects of the miniature model Napoleonic Coach and other scale model cars the students designed
