The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education

systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents *Lessons from the Kalahari* Monica Hendricks,2020-05-05 *Lessons from the Kalahari* Tracking Teachers Professional Development explores how Northern Cape teachers who were enrolled in a Bachelor of Education in service course responded to three professional development modules specialising in mathematics education English language teaching and Foundation Phase teaching respectively Mainly through fine grained analyses of their classroom practice the studies in this volume demonstrate how these teachers grappled with new content knowledge and pedagogical innovations to improve the quality of teaching in their classrooms The chapters include case studies that range across a variety of pedagogical topics including mathematics and English teachers classroom practices involvement of parents of Foundation Phase learners and learners autonomous mathematics learning The book makes an original empirically based contribution to the understanding of the challenges confronting primary and secondary school teachers in remote rural parts of Northern Cape province South Africa **Data Analytics Approaches in Educational Games and Gamification Systems** Ahmed Tlili,Maiga Chang,2019-09-10 Game based learning environments and learning analytics are attracting increasing attention from researchers and educators since they both can enhance learning outcomes This book focuses on the application of data analytics approaches and research on human behaviour analysis in game based learning environments namely educational games and gamification systems to provide smart learning Specifically it discusses the purposes advantages and limitations of applying such approaches in these environments Additionally the various smart game based learning environments presented help readers integrate learning analytics in their educational games and gamification systems to for instance assess and model students e g their computational thinking or enhance the learning process for better outcomes Moreover the book presents general guidelines on various aspects such as collecting data for analysis game based learning environment design system architecture and applied algorithms which facilitate incorporating learning analytics into educational games and gamification systems After a general introduction to help readers become familiar with the subject area the individual chapters each discuss a different aim of applying data analytics approaches in educational games and gamification systems Lastly the conclusion provides a summary and presents general guidelines and frameworks to consider when designing smart game based learning environments with learning analytics Research for Educational Change Jill Adler,Anna Sfard,2016-06-17 *Research for Educational Change* presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book

four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research
