The objectives of the Mental Measurements Yearbooks have remained essentially the same since the publication of the series. These objectives include provision to test users of factual information on all known tests published as separates in the English speaking countries of the world; candidly critical test reviews written for the MMYs by qualified professional people representing a variety of viewpoints; excerpts of the critical portions of test reviews which have been published in professional journals; comprehensive bibliographies for specific tests of references which have been examined for their relevance to the particular tests; listing of books on measurements and closely related fields as well as excerpts of evaluative statements from reviews of these books in professional journals. Each yearbook is a unique publication supplementing rather than supplanting the previous volumes. The Seventh Mental Measurements Yearbook is a two volume reference work presenting information on 1 157 tests, 181 excerpted journal reviews, 798 original reviews by 439 specialists, 12 539 references on the construction, use, and validity of specific tests, a bibliography of 664 books on testing with 554 reviews they received, a directory of 443 test and book publishers, comprehensive author title and scanning index.
