Classroom Practice and Teacher Cognition Nicholas Bradley, 2024-10-26 This collection occupies the middle ground between teachers showcasing their work and academics presenting research that is often situated in irreplicable uncommon or impractical classroom settings The

work presented here is provided by full time university language educators who maintain a robust and active research agenda that focuses on their own classroom practice Whether one wishes to label it under action research exploratory practice reflective practice or other the findings of the research into their own practices and educational contexts are accessible and will resonate strongly with both practicing teachers and academics investigating classroom practice and teacher cognition All articles are written with the aim of developing practice in a way that is recognisable to teachers and beneficial to their educational efforts Indeed recent literature calls for guidance to come from those actively engaged in classroom teaching and who apply sound research methods to the daily contexts lived by teachers and students

Reading Instruction for Classroom and Clinic Edward Bernard Fry, Edward Fry, 1972 Test Fraud Neal Kingston, Amy Clark, 2014-06-27 There has been an increase in awareness and perhaps occurrence of individual and organized cheating on tests Recent reports of widespread problems with state student accountability tests and teacher certification testing have raised questions about the very validity of assessment programs While there are several books that specifically detail the issues of test security cheating on assessments few outline the statistical procedures used for detecting various types of potential test fraud and the associated research findings Without a significant research literature base the new generation of researchers will have little opportunity or incentive to improve on existing methods Enlisting a variety of experts and scholars in different fields of testing this edited volume expands on the current literature base by including examples of detailed research findings arrived at by statistical methodology It also provides a synthesis of the current state of the art with regard to the statistical detection of testing infidelity particularly for large scale assessments By presenting methods currently used by testing organizations and research on new methods the volume offers an important forum for expanding the literature in this area

Testing for Learning Ruth Mitchell, 1992 Evaluation sends a message It points to what is valued and ignores what is not perceived to be important Educational evaluation testing and assessment has been telling students teachers administrators and legislators that the system values rote memorization and passive recognition of single correct answers
