Learning to Be Teacher Leaders Amy D. Broemmel, Jennifer Jordan, Beau Michael Whitsett, 2015-08-20 *Learning to Be Teacher Leaders* examines three integrated components of strong pedagogy: assessment, planning, and instruction within a framework emphasizing the knowledge, skills, and dispositions that can empower teachers to become teacher leaders within their schools. Combining the what, why, and how of teaching, the research-based concepts presented in a pragmatic format are relevant across grade levels, classrooms, and content areas. Better Learning Through Structured Teaching Douglas Fisher, Nancy Frey, 2021-07-23 Now in its 3rd edition, *Better Learning Through Structured Teaching* is the definitive guide to the gradual release of responsibility, an instructional framework any teacher can use to help students to be more successful and self-directed learners. To gradually release responsibility is to equip students with what they need to master content and develop new competencies. On a day-to-day basis, it means delivering lessons intentionally structured to incorporate four interrelated phases: Focused Instruction (I do it), that sets students up for cognitive apprenticeship by establishing lesson purpose, modeling strategies and skills, and sharing information and insight; Guided Instruction (We do it), that incorporates targeted prompts, cues, and questions to scaffold understanding; Collaborative Learning (You do it), that allows students to consolidate and extend understanding through accountable group tasks built on discussion and cooperative problem solving; and Independent Learning (You do it alone), that provides students opportunities to practice and apply the skills and knowledge they've acquired to create authentic products and ask new questions. Authors Douglas Fisher and Nancy Frey detail the components of each phase, sharing proven strategies and real-life examples. You'll find a variety of useful tips for classroom implementation along with new guidance on teacher credibility, social-emotional learning, and
