A. Schokkenbroek,2008 Until the present day whaling and sealing in the nineteenth century have hardly received attention in Dutch maritime historiography During the two preceding centuries whaling had developed into a prominent maritime industry Various major external and internal problems however contributed to its rapid decline during the second half of the eighteenth century After the Napoleonic Era 1795 1815 increasing numbers of Dutch entrepreneurs resumed whaling both in the Arctic and in the South Seas This book based on extensive research into unexplored archival sources and secondary literature fills many of the gaps in our understanding of how whaling and sealing were organised in the Netherlands *Skifter* Norsk polarinstitutt,1928 **Conservation of Modern Oil Paintings** Klaas Jan van den Berg,Ilaria Bonaduce,Aviva Burnstock,Bronwyn Ormsby,Mikkel Scharff,Leslie Carlyle,Gunnar Heydenreich,Katrien Keune,2020-02-17 Artists oil paints have become increasingly complex and diverse in the 20th Century applied by artists in a variety of ways This has led to a number of issues that pose increasing difficulties to conservators and collection keepers A deeper knowledge of the artists intent as well as processes associated with material changes in paintings is important to conservation which is almost always a compromise between material preservation and aesthetics This volume represents 46 peer reviewed papers presented at the Conference of Modern Oil Paints held in Amsterdam in 2018 The book contains a compilation of articles on oil paints and paintings in the 20th Century partly presenting the outcome of the European JPI project Cleaning of Modern Oil Paints It is also a follow up on Issues in Contemporary Oil Paint Springer 2014 The chapters cover a range of themes and topics such as patents and paint manufacturing in the 20th Century characterization of modern contemporary oil paints and paint surfaces artists materials and techniques the artists voice and influence on perception of curators conservators and scientists model studies on paint degradation and long term stability approaches to conservation of oil paintings practical surface treatment and display The book will help conservators and
