**Localizing Governance in India** Bidyut Chakrabarty,2017-02-17 Participatory governance has a long history in India and this book traces historical intellectual trajectories of participatory governance and how older Western discourses have influenced Indian policymakers While colonial rulers devolved power to accommodate dissenting voices for independent India participatory governance was a design for democratizing governance in its true sense Participation also acted as a vehicle for localizing governance The author draws on both Western and non Western theoretical treatises and the book seeks to conceptualize localizing governance also as a contextual response It also makes the argument that despite being located in different socio economic and political milieu thinkers converge to appreciate localizing governance as perhaps the only reliable means to democratize governance The book aims to confirm this argument by reference to sets of evidence from the Indian experience of localizing governance By attempting a genealogy of participatory governance in the West and in India and an empirical study of participatory governance in India the book sheds light on the exchange of ideas and concepts through space and time thus adding to the growing body of literature in the social sciences on conceptual flow It will be of interest to political scientists and historians in particularly those studying South Asia Childhood Education ,1925
