Teachers' Preparation for the Implementation of Inclusive Education in Primary Schools in Eswatini S'lungile K.

Thwala, Tsediso Michael Makoele, 2022-03-04 This book is about inclusive education and is designed to prepare teachers to effectively teach exceptional children in primary schools in Southern Africa. It identifies key concepts associated with inclusive education and discusses these in relation to issues in the reform of teacher education. It argues that the reform of teacher education for inclusive education is an important activity in improving educational equity. The theoretical framework for inclusion is outlined and examples of how teachers might engage in more inclusive practice are presented as are the benefits of inclusive education. The book argues that preparation for inclusive education requires a new framework that calls for partnership between universities and schools. It is envisaged that the book will fill a gap in literature and practice thereby enabling policy makers, college administrators and lecturers to review policies, teacher education curricula and pedagogical issues pertaining to preparing teachers for working in inclusive schools. As such it will provide a springboard for teachers, colleges and universities to improve teacher preparation for inclusive education.

The Oxford History of Anglicanism, Volume V William L. Sachs, 2017-12-15 The Oxford History of Anglicanism provides a global study of Anglicanism from the sixteenth century to the twenty first. The five volumes in the series look at how Anglican identity was constructed and contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries. They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non-Western societies since the nineteenth century. Written by international experts in their various historical fields, each volume analyses the varieties of Anglicanism that have emerged. The series also highlights the formal, political, institutional and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it. Volume five of The Oxford History of Anglicanism considers the global experience of the Church of England in mission and in the transitions of its mission Churches towards autonomy in the twentieth century. The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed. The contributors focus on what it has meant to be Anglican in diverse contexts. What spread from England was not simply a religious institution but the religious tradition it intended to implant. The volume addresses questions of the conduct of mission, its intended and unintended consequences. It offers important insights on what decolonization meant for Anglicans as the mission Church in various global locations became self-reliant. This study breaks new ground in describing the emergence of an Anglicanism shaped more contextually than externally. It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts. The influence of context and the challenge of adaption to it framed Anglicanism's twentieth-century experience.
