Public administration :Theory and Practice Dr. Anil Kumar Singh, 2022-01-09 Public administration Theory and Practice Public administration theory is the amalgamation of history, organizational theory, social theory, political theory, and related studies focused on the meanings, structures, and functions of public service in all its forms. As a relatively new and applied field, public administration is constantly adapting to changing socio-political and economic conditions and as a result is not easy to classify. The most popular approach to teaching public administration theory is to trace its evolution throughout time, putting different theories in their historical context. The pursuit of effective public sector administration may be explained as a series of ideas, each representing a step or increment towards a complete theory of public administration. Viewed over time, they have helped build a substantial reservoir of knowledge. Similarly, it is important to discuss theories and tenets of public administration from the viewpoint of their impact on the development of the field, the rhetoric that justified their embrace by the public, and the factors that shaped them. For this reason, we find it useful to present five great ideas that shaped the field, combining their historical importance and theoretical distinctiveness. Public administration is a subject of human inquiry with ancient roots. Contrary to present practice, the ancients were preoccupied with the governance of public affairs as opposed to business, and very often, as in Greece, had disdain for commerce and management of the business enterprise. Ancient empires created elaborate state structures and effectively operated an apparatus overseeing huge territories. This book is a comprehensive, up-to-date textbook on the constantly changing and often complex world of this subject.

Lynch, 1997-11-20 Chronologically arranged to demonstrate the evolution of ideas, this book explores major issues in public and government organization theory using classical philosophy. Containing over 2000 bibliographic citations, the book covers the influence of Plato's ideas and Jesus' teachings on public administration theory, presents Machiavelli as the creator of the modern concept of public administration, details the effect of mercantilism on political governance, examines the ideas of Jeremy Bentham, John Locke, Adam Smith, and David Hume in American government, discusses the importance of Woodrow Wilson, the Progressive Reform Era, and the Bureau Movement on public administration, and more.

Making Sense of Identity and Equity in Public Sector Workplaces Nicole M. Elias, Maja Husar Holmes, Maria J. D'Agostino, 2025-02-14 Identity and equity in public sector workplaces are two of the most crucial yet complex concepts for

decision makers to address This important new book offers public administration scholars practitioners and students a comprehensive resource to make sense of identity and equity in the public sector workplace The chapters in this volume present original research and explore timely and relevant theories and practices of identity and equity in public sector workplaces To do this authors present innovative theories and approaches to identity and equity analyze practical pathways to identity and equity and critique foundational policy and law addressing identity and equity The utility of this volume lies in the timeliness and innovative approaches to evolving concepts of identity and equity in public sector workplaces Applying a liberatory lens the chapters reflect an expanded interpretation and understanding of identity the challenges and opportunities for public sector organizations to more fully embrace and integrate diverse identities in the workplace and paths for future research and application of practices that strive for more equitable and inclusive workplaces *Making Sense of Identity and Equity in Public Sector Workplaces* is essential reading for all students and scholars of public administration as well as those working in public and nonprofit organizations

Government Budgeting and Financial Management in Practice Gerald J. Miller, 2017-09-25 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities *Government Budgeting and Financial Management in Practice* Logics to Make Sense of Ambiguity examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today s government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition
