maniacal intensity that was callous and at times destructive At the beginning of 2022 after a year marked by SpaceX launching thirty one rockets into orbit Tesla selling a million cars and him becoming the richest man on earth Musk spoke ruefully about his compulsion to stir up dramas I need to shift my mindset away from being in crisis mode which it has been for about fourteen years now or arguably most of my life he said It was a wistful comment not a New Year s resolution Even as he said it he was secretly buying up shares of Twitter the world s ultimate playground Over the years whenever he was in a dark place his mind went back to being bullied on the playground Now he had the chance to own the playground For two years Isaacson shadowed Musk attended his meetings walked his factories with him and spent hours interviewing him his family friends coworkers and adversaries The result is the revealing inside story filled with amazing tales of triumphs and turmoil that addresses the question are the demons that drive Musk also what it takes to drive innovation and progress

The “New” Epidemic- Grading Practices Andre’ Mathews, 2016-03-16 This book is a comprehensive view on the grading practices and policies in American public schools The content of the book identifies the lack of alignment amongst the Federal State and Local Districts and the need to adopt a unified policy Educational institutions are creating their own versions of grading systems that lack integrity flawed in design hinder many students from graduating and or achieving opportunities to become a more productive citizen after high school completion Section I The structure of the book begins with a systemic view of development by identifying the philosophical and theoretical aspects involved in the grading system Section II The authors work then transitions to the structure of the grading system addressing the mathematical aspects of calculating a students grade point average to the teachers validity of grades Section III This section identifies the parents role and need to understand the grade itself and its effect on the students overall outcome and class ranking Section IV The book ends with a strong analysis of the system parental rights examples of educational disasters and schools quest for new grading systems All in all this book takes a journey throughout the entire educational system identifying a need for change on all levels as it relates to the grading system The overall message emphasizes the parents need to be cognizant of the importance of being involved and properly motivating mentoring monitoring modeling and managing their childs educational careers All stakeholders should walk away with a sense of ownership to the problem and an understanding that the time for change is now The ethnic margin is widening and too many students are graduating unmarketable A grade is more than a number its a quality of life
