Grade Nine Result 2015:

Socioeconomic Inequality and Educational Outcomes Markus Broer,Yifan Bai, Frank Fonseca,2019-05-15 This open access book focuses on trends in educational inequality using twenty years of grade 8 student data collected from 13 education systems by the IEA s Trends in Mathematics and Science Study TIMSS between 1995 and 2015 While the overall positive association between family socioeconomic status SES and student achievement is well documented in the literature the magnitude of this relationship is contingent on social contexts and is expected to vary by education system Research on how such associations differ across societies and how the strength of these relationships has changed over time is limited This study therefore addresses an important research and policy question by examining changes in the inequality of educational outcomes due to SES over this 20 year period and also examines the extent to which the performance of students from disadvantaged backgrounds has improved over time in each education system Education systems generally aim to narrow the achievement gap between low and high SES students and to improve the performance of disadvantaged students However the lack of quantifiable and comprehensible measures makes it difficult to assess and monitor the effect of such efforts In this study a novel measure of SES that is consistent across all TIMSS cycles allows students to be categorized into different socioeconomic groups This measure of SES may also contribute to future research using TIMSS trend data Readers will gain new insight into how educational inequality has changed in the education systems studied and how such change may relate to the more complex picture of macroeconomic changes in those societies Viet Nam Secondary Education Sector Assessment, Strategy, and Road Map Asian Development Bank,2020-02-01 This report provides an assessment of Viet Nam s secondary education sector including technical and vocational education training programs The report reviews sector achievements and challenges as well as the Government of Viet Nam s strategy and policies It also outlines how the Asian Development Bank ADB and other development partners have contributed to the sector The report provides recommendations on measures to boost access to secondary education and to improve its overall quality and management

TRANSITION PROGRAM IN ECONOMICS FOR GRADE 9 HEARING IMPAIRED STUDENTS: BASIS FOR COMPUTER ASSISTED INSTRUCTIONAL MODULE , Politics and Governance of Basic Education Brian Levy,Robert Cameron,Ursula Hoadley,Vinothan Naidoo,2018-09-21 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the

vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

Education in Cambodia Vincent McNamara, Martin Hayden, 2022-05-14 This book is the most comprehensive account yet published about the education system in Cambodia It covers all system levels and draws upon the knowledge and insights of a wide range of leading Cambodian and foreign scholars The book focuses on how the system has developed and is making progress Significant achievements over the past two decades are evident but many problems remain including the poor quality of teaching research and institutional management Under funding is an ongoing obstacle but so too is a bureaucratic culture of resistance to change a history of weak governance and an anti reform sentiment deriving from a teacher centred and exam driven curriculum Achieving international standards must now be the system s highest priority To this end the system must rid itself of conservatism complacency and manipulation by parochial vested interests

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education

and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI
