The Colonial Legacy in France Nicolas Bancel, Pascal Blanchard, Dominic Thomas, 2017-05-01 Debates about the legacy of colonialism in France are not new but they have taken on new urgency in the wake of recent terrorist attacks Responding to acts of religious and racial violence in 2005 2010 and 2015 and beyond the essays in this volume pit French ideals against government sponsored revisionist decrees that have exacerbated tensions complicated the process of establishing and recording national memory and triggered divisive debates on what it means to identify as French As they document the checkered legacy of French colonialism the contributors raise questions about France and the contemporary role of Islam the banlieues immigration race history pedagogy and the future of the Republic This innovative volume reconsiders the cultural economic political and social realities facing global French citizens today and includes contributions by Achille Mbembe Benjamin Stora Fran oise Verg s Alec Hargreaves Elsa Dorlin and Alain Mabanckou among others **Remnants of the**

Kleppinger, Laura Reeck, 2018 **Post Migratory Cultures in Postcolonial France** offers a critical assessment of the ways in which French writers filmmakers musicians and other artists descended from immigrants from former colonial territories bring their specificity to bear on the bounds and applicability of French republicanism Frenchness and national identity and contemporary cultural production in France In mobilizing a range of approaches and methodologies pertinent to their specialist fields of inquiry contributors to this volume share in the common objective of elucidating the cultural productions of what we are calling post migratory second and third generation postcolonial minorities The volume provides a lens through which to query the dimensions of postcoloniality and transnationalism in relation to post migratory postcolonial minorities in France and identifies points of convergence and conversation among them in the range of their cultural production The cultural practitioners considered query traditional French high culture and its pathways and institutions some emerge as autodidacts introducing new forms of authorship and activism they inflect French cultural production with

While multicultural comedies criticise hegemonic whiteness and outdated stances on race relations they simultaneously perpetuate the colonial aesthetic register by deploying a republican gaze an ironic meta narrative perspective on ethnic minorities Ewelina Pepiak analyses how gender and ethnicity are represented in seven contemporary French comedies 2008 2018 including mixed race couples focusing on a trope of m tissage biological and cultural mixing and white femininity As analyses of ethnic and gender representations remain scarce due to the slow emergence of postcolonial studies in France this study adds significant insights to the postcolonial debate Reframing Postcolonial Studies David D. Kim,2020-11-30

Reframing Postcolonial Studies addresses the urgent issues that Black Lives Matter has raised with respect to everyday material practices and the frameworks in which our knowledge and cultural heritage are conceptualized and stored Thebook points urgently to the many ways in which our society must reinvent itself to enable equitable justice for all Robert J C Young Julius Professor of English and Comparative Literature New York University USA Drawing on urban theory art history literary analysis environmental humanities and linguistics this book is ambitious and wide ranging asking us what it is to live creatively and critically with the residues of colonial appropriation and sedimentation while in open dialogue with the subjects who still live in its wake Tamar Garb Durning Lawrence Professor in History of Art University College London UK This book constitutes a collective action to examine what foundational concepts interdisciplinary methodologies and activist concerns are pivotal for the future of common humanity as we bear the weight of our postcolonial inheritance in the twenty first century Written by scholars of different generations the chapters interrogate how current intellectual endeavors are in contact with individual and community based actions outside of the academy Going beyond the perennial debates on the tension between theory and praxis or on the disparity between activism and scholarship they examine literary texts visual artworks language and immigration policies public monuments museum exhibitions moral dilemmas and political movements to deepen our contemporary postcolonial action on the edge of conceptual thinking methodological experimentation and scholarly activism Reframing Postcolonial Studies is the first volume whose rationale is formulated in explicitly intergenerational future oriented terms **Towards a Vigilant Society** Matthijs Gardenier,2024-07-19

Towards a Vigilant Society sheds light on the emergence of a new society of vigilance in particular the actions of anti migrant groups around Dover and Calais Based on field research on both sides of the channel it studies the dynamics of these groups midway between a social movement and

vigilantism at these two key points in the international migration route between the European Union and the United Kingdom In recent years a series of anti migrant groups have been mobilising on both sides of the Channel to counter migrations Their actions range from demonstrations to violence against migrants And by staging their actions on social media which is an extraordinary sounding board these groups can build an online community and a mass audience influencing public opinion and even the migration policies of states This is an open access title available under the terms of a CC BY NC ND 4 0

Countering Islamophobia in Europe Ian Law,Amina Easat-Daas,Arzu Merali,S. Sayyid,2019-05-29 The treatment of Muslims is the touchstone of contemporary European racism across its many nations and localities We make a definitive case for two arguments in this book firstly the recognition of the accelerating and pervasive nature of Islamophobia in this region and secondly recognition that this process is being can be and will be challenged by counter narratives that make the claim for Muslim humanity plurality space and justice This book draws on new evidence from eight national contexts to provide an innovative kit of counter narratives which were presented and well received at the European Parliament in September 2018 and subsequently launched across Europe in national workshops in selected states A synergy between leading academic researchers and the Islamic Human Rights Commission Countering Islamophobia in Europe will be of value to EU institutions governments and policy makers NGOs and media organisations as well as researchers of multiculturalism Islam Muslims and immigration

Necropolitics Achille Mbembe,2019-10-25 In Necropolitics Achille Mbembe a leader in the new wave of francophone critical theory theorizes the genealogy of the contemporary world a world plagued by ever increasing inequality militarization enmity and terror as well as by a resurgence of racist fascist and nationalist forces determined to exclude and kill He outlines how democracy has begun to embrace its dark side what he calls its nocturnal body which is based on the desires fears affects relations and violence that drove colonialism This shift has hollowed out democracy thereby eroding the very values rights and freedoms liberal democracy routinely celebrates As a result war has become the sacrament of our times in a conception of sovereignty that operates by annihilating all those considered enemies of the state Despite his dire diagnosis Mbembe draws on post Foucauldian debates on biopolitics war and race as well as Fanon s notion of care as a shared vulnerability to explore how new conceptions of the human that transcend humanism might come to pass These new conceptions would allow us to encounter the Other not as a thing to exclude but as a person with whom to build a more just world

Post-Western Sociology - From China to Europe Laurence Roulleau-Berger, Li Peilin, 2018-05-15 This book is rooted in an epistemological approach to sociology in which the boundaries between Western and non Western sociologies are acknowledged and built on It argues that knowledge is organised in conceptual spaces linked to paradigms and programmes which in turn are linked to ethnocentred knowledge processes that until recently Western approaches including Post Colonial French Social Science and American approaches have dominated non Western theories and that Western theories have sometimes seemed incapable of explaining phenomena produced in other societies It goes on to argue that the blurring of boundaries between Western and non Western sociologies is very important and that such a Post Western approach will mean co production and co construction of common knowledge the recognition of ignored or forgotten scientific cultures and a global change in sociology which imposes theoretical and methodological detours displacements reversals and conversions The book brings together a wide range of Western and Chinese sociologists who explore the consequences of this new approach in relation to many different issues and aspects of sociology

Quelques réflexions sur la littérature haïtienne contemporaine Loudmire Gue, 2022-12-20 Cet ouvrage n'a-t-il pas constaté d'un vide dans le domaine de la critique littéraire haïtienne Il n'entend pas le combler mais apporte quelques pistes permettant d'y remédier certains regards En effet en mettant les notions philosophiques au service de l'analyse littéraire le livre tente de dépasser les oppositions de termes spécifiques considérés généralement comme antagoniques savoir la mémoire et l'imagination la fiction et la réalité le réel et l'imaginaire Ces quelques réflexions sur la littérature haïtienne contemporaine portent les empreintes d'un appel des concepts philosophiques

permettant de dégager une étude critique et rigoureuse de l'activité littéraire dont l'intérêt attribué esthétique c'est-à-dire la poétique des œuvres examinées. C'est ainsi qu'un travail de décryptage allant du constatif à l'interprétatif a permis d'aboutir à une théorie de la fictionnalisation de la réalité autrement dit une approche scientifique de la fiction.

La société française de 1945 à nos jours Valérie Verclytte, 2018-10-03 Comment la société française a-t-elle évolué depuis les années d'après-Seconde Guerre mondiale économiquement culturellement politiquement démographiquement et sociologiquement les mutations de son histoire ont été profondes Cette synthèse se revient sur ces thématiques en analysant point par point toutes ces transformations ainsi que leur impact sur les Français Des Trente Glorieuses aux crises pétrolières et financières de la désertification des campagnes l'émergence des HLM et la crise des banlieues des changements sociopolitiques la tertiarisation massive du statut des femmes et des jeunes la crise du modèle social des bouleversements territoriaux la citoyenneté 2.0 de la déschristianisation au multiconfessionnalisme ce manuel questionne l'effectivité du modèle républicain issu de la Résistance jusqu'à parvenir au visage de la France d'aujourd'hui

Sortir de l'impasse postcoloniale Philippe San Marco, 2016 Certains de nos concitoyens relient nos difficultés présentes à la brève histoire des conquêtes coloniales réalisées par la France au XIX^e siècle Pour eux la France continuerait de vivre une situation coloniale et traiterait ses indigènes issus de ses anciennes colonies comme elle l'aurait fait autrefois par le mépris et la répression Ils appellent donc notre pays exprimer une contrition seule capable de nous permettre de sortir d'un passé colonial qui perdurerait de nos jours et nous entraverait Ce livre va donc essayer de relire cette histoire coloniale non pas la lumière de ce que nous en savons après coup mais de ce qu'en percevaient les contemporains qui eux ne en connaissaient pas la fin Dix personnages qui furent célèbres à l'époque coloniale et qui depuis sont tombés dans l'oubli vont servir comme une anamorphose autant de rétroglaces permettant d'y voir globalement plus clair Relier les difficultés du présent au passé même bien partiel en l'occurrence le passé colonial n'est pas en soi illégitime C'est la manipulation partielle de ce passé recomposé qui transforme l'exercice en grenade explosive Dans un pays au bord de la crise de nerfs voire de la guerre civile l'exercice n'est donc pas anodin Empêcher que le processus en cours ne dégénère en des haines inexpugnables mériterait qu'on y consacre le temps nécessaire Ici de construire un discours de victimisation qui enferme et responsabilise et conduit une impasse La fulgurance des rapprochements entre certains faits ou attitudes de l'époque et notre présent nourrit alors une réflexion plus complexe respectueuse du passé qui est ce qu'il est mais qui ne saurait sans réaction être recomposé au profit d'un projet de rupture politique d'une autre nature

La Condition immigrée Arnousse Beaulière, 2020-12-11 L'expérience migratoire est un phénomène complexe aux dimensions multiples En témoignent la situation des migrants africains et afro-caribéens en proie au doute d'un éventuel retour au pays natal souvent indécis et désorientés face à l'intensité du malaise identitaire dans les pays occidentaux Ce malaise persistant se caractérise par un climat délétère de repli sur soi de méfiance voire de xénophobie et de racisme dans un contexte d'exacerbation de la pauvreté et des inégalités économiques et sociales à l'heure de la mondialisation néolibérale et de la Covid 19 Comment analyser ce phénomène complexe
