## **Knights Of The Cloister:**

Knights of the Cloister Dominic Selwood,1999 This study examines the work of the military and religious orders of the Knights Templar founded 1120 and Knights Hospitaller founded c 1099 both of whom were a driving force throughout the long history of the crusades Using original charters to analyse their activities in their administrative heartland in south west France it sets them in the context of contemporary religious life and economic organization Knights of the Cloister Dominic Selwood,1999 **Knights of the Cloister** Dominic Kim Selwood,1996 **The Knights of the Crown** D'Arcy Jonathan Dacre Boulton,2000 A significant contribution to the history of the political life and culture of the later medieval aristocracy MAURICE KEEN Orders of lay knights the most famous of which are those of the Garter and the Golden Fleece were founded at some time between 1325 and 1470 in almost every kingdom of Western Christendom and played an important part in the life of the court Jonathan Boulton defines the monarchical orders as those with corporate statutes which attached the presidential office to the crown of the princely founder or made it hereditary in his house Modelled either directly or indirectly on the fictional society of the Round Table they incorporated varying numbers of elements borrowed from the older religious orders of knighthood and from contemporary institutions This study explores the nature and history of thirteen orders and reveals them as not only an ingenious supplement to or replacement for the feudo vassalic ties that still bound the leading members of the nobility to their sovereign but also as the most important institutional embodiments of the secular ideals of chivalry that were at the heart of the international court culture of the age JONATHAN BOULTON teaches at the University of Notre Dame *The Knights of the Cross* Henryk Sienkiewicz,1900 It is in the very first rank of imaginative and historical romance The time and scene of the noble story are laid in the middle ages during the conquest of Pagan Lithuania by the military and priestly order of the Krzyzacy Knights of the Cross And the story exhibits with splendid force the collision of race passions and fierce violent individualities which accompanied that struggle Those who read it will in addition to their thrilling interest in the tragical and varied incidents gain no little insight into the origin and working of the inextinguishable race hatred between Teuton and Slav It was an unfortunate thing surely that the conversion of the heathen Lithuanians and Zmudzians was committed so largely to that curious variety of the missionary the armed knight banded in brotherhood sacred and military To say the least his sword was a weapon dangerous to his evangelizing purpose He was always in doubt whether to present to the heathen the one end of it as a cross for adoration or the other as a point to kill with And so if Poland was made a Catholic nation she was also made an undying and unalterable hater of the German the Teutonic name and person Goodreads **The Medieval Cloister in England and Wales** John McNeill,2017-12-02 This dedicated volume of the Journal of the British Archaeological Association draws together ten papers which collectively explore something of the art and architecture styles and uses of the medieval cloister in England and Wales Contributors consider the continental context cloisters in English palaces Benedictine and Augustinian cloister arcades

in the 12th and 13th centuries architecture and meaning in Cistercian east ranges late medieval vaulted cloisters in the West Country cloisters at the cathedrals of Old Sarum Canterbury and Lincoln and assess the extent to which the cloister bosses at Norwich cathedral priory reflect contemporary religious politics The volume also contains an extended consideration and gazetteer of all Cistercian cloisters in England and Wales      **The Knights of the Cross; Or, Krzyżacy** Henryk

**Chronicles of the Crusades** Geoffrey Villehardouin, Jean de Joinville, Sir Frank Marzials, 2007-05-11 This book features two eyewitness accounts of the Crusades Villehardouin's Chronicle of the Fourth Crusade and the Conquest of Constantinople and Joinville's Chronicle of the Crusade of St Lewis A pair of engrossing narratives by actual participants these are among the most authoritative accounts available of the medieval Holy Wars They recount terrifying scenes from the battlefields that recapture the horror of warfare and offer invaluable insights into the religious and political fervor that sparked the two hundred year campaign The first reliable history of the Crusades Villehardouin's work spans the era of the Fourth Crusade from 1199-1207 It traces the path of a small army of crusaders who despite overwhelming odds captured the city of Constantinople Joinville's chronicle focuses on the years 1248-1254 the time of the Seventh Crusade Written by a prominent aid to King Louis of France it offers personal perspectives on the pious monarch and his battles in the Holy Lands Both of these highly readable histories provide rare glimpses of medieval social economic and cultural life in the context of the crusaders quest for honor piety and glory
