 Spirits Lost Souls told by parents of disturbed youngsters paint a clear picture of their chilling dangerous behavior
 Attachment disorder may be demonstrated by out of control children as young as three years old By their teens these kids
 predictably defy authority and challenge every accepted familial and societal norm At their best individuals with RAD
 represent the embryonic stages of an antisocial personality at their worst they are full blown psychopaths consumed by the
 search for another victim RAD is not a rare phenomenon and is primarily preventable through early identification and by
