Literature and the Idea of Luxury in Early Modern England Alison V. Scott, 2016-05-06 Exploring the idea of luxury in relation to a series of neighboring but distinct concepts including avarice excess licentiousness indulgence vitality abundance and waste this study combines intellectual and cultural historical methods to trace discontinuities in luxury's conceptual development in seventeenth century England The central argument is that as luxury was gradually Englished in seventeenth century culture it developed political and aesthetic meanings that connect with eighteenth century debates even as they oppose their so called demoralizing thrust Alison Scott closely examines the meanings of luxury in early modern English culture through literary and rhetorical uses of the idea She argues that while luxury could and often did denote merely lust or licentiousness as it tends to be glossed by modern editors of contemporary works its cultural lexicon was in fact more complex and fluid than that at this time Moreover that fuller understanding of its plural and shifting meanings as they are examined here has implications for the current intellectual history of the idea in Western thought The existing narrative of luxury's conceptual development is one of progressive upward transformation beginning with the rise of economic liberalism amidst eighteenth century debates it is one that assumes essential continuity between the medieval treatment of luxury as the sin of luxuria and early modern notions of the idea even as social practises of luxury explode in early seventeenth century culture

A Taste for Luxury in Early Modern Europe Johanna Ilmakunnas, Jon Stobart, 2017-06-29 Jon Stobart and Johanna Ilmakunnas bring together a range of scholars from across mainland Europe and the UK to examine luxury and taste in early modern Europe In the 18th century debates raged about the economic social and moral impacts of luxury whilst taste was viewed as a refining influence and a marker of rank and status This book takes a fresh comparative approach to these ideas drawing together new scholarship to examine three related areas in a wide variety of European contexts Firstly the deployment of luxury goods in displays of status and how these practices varied across space and time Secondly the processes of communicating and acquiring taste and luxury how did people obtain tasteful and luxurious goods and how did they recognise them as such Thirdly the ways in which ideas of taste and luxury crossed national political and economic boundaries what happened to established ideas of luxury and taste as goods moved from one country to another and during times of political transformation Through the analysis of case studies looking at consumption practices material culture political economy and retail marketing A Taste for Luxury in Early Modern Europe challenges established readings of luxury and taste This is a crucial volume for any historian seeking a more nuanced understanding of material culture consumption and luxury in early modern Europe

Luxury and Gender in European Towns, 1700-1914 Deborah Simonton, Marjo Kaartinen, Anne Montenach, 2014-09-04 This book conceives the role of the modern town as a crucial place for material and cultural circulations of luxury It concentrates on a critical period of historical change the long

eighteenth and nineteenth centuries that was marked by the passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional aristocratic luxury to a new bourgeois and even democratic form of luxury This volume recognizes the notion that luxury operated as a mechanism of social separation but also that all classes aspired to engage in consumption at some level thus extending the idea of what constituted luxury and blurring the boundaries of class and status often in unsettling ways It moves beyond the moral aspects of luxury and the luxury debates to analyze how the production distribution purchase or display of luxury goods could participate in the creation of autonomous selves and thus challenge gender roles

Tradition and Innovation in English Retailing, 1700 to 1850 Dr Ian Mitchell, 2014-02-04 Three decades of research into retailing in England from the seventeenth to nineteenth centuries has established a seemingly clear narrative fixed shops were widespread from an early date modern methods of retailing were common from at least the early eighteenth century shopping was a skilled activity throughout the period and consumers were increasingly part of and aware of being part of a polite and fashionable culture This book presents a reassessment of the standard view by challenging the usefulness of concepts like traditional and modern examining consumption and retailing as inextricably linked aspects of a single process and by using the idea of narrative to discuss the roles and perceptions of the various actors in this process such as retailers shoppers consumers local authorities and commentators

economics The Age of Choice urges us to rethink the meaning of choice and its promise and limitations in modern life
