Hazen, Margaret Hindle Hazen, 2014-07-14 For Lo We live in an Iron Age In the age of Steam and Fire wrote a poet mesmerized by the engines that were transforming American transportation agriculture and industry during his lifetime Indeed by the nineteenth century fire

had become America's leitmotif for good and for ill. Keeping the flame was deadly serious even the slightest lapse of attention could convert a fire from friendly ally to ravaging destroyer. To examine the cultural context of fire in combustible America, Margaret Hazen and Robert Hazen gather more than a hundred illustrations most never before published together with anecdotes and information from hundreds of original sources including newspapers, diaries, company records, popular fiction, art, and music. What results is an immensely entertaining and encyclopedic history that ranges from stories of the tragic great fires of the century to fire imagery in folktales and popular literature. Dealing more with technology than with fire in nature, the book provides a vast amount of information on fire manipulation and prevention in urban life. Hazen and Hazen discuss the people who worked with fire or against it: Founders, gaffers, blacksmiths, boilers at saltworks, and housewives knew how to read a fire and employ it for their purposes. A few dedicated investigators inquired about the scientific nature of heat and flame. And firefighters gradually progressed from bucket brigades to using fire to fight fire with the newly invented steam engine. The colorful stories of these Americans, the risks they took, and the rewards they received will fascinate not only social historians but also a broad audience of general readers. Contains primary source material. **Which Way to the Wild West?** Steve Sheinkin, 2010-07-06. New York Times bestselling author and Newbery Honor recipient Steve Sheinkin welcomes young readers to the thrilling, tragic, and downright wild historic adventure of America's westward expansion in *Which Way to the Wild West: Everything Your Schoolbooks Didn't Tell You About America's Westward Expansion*, featuring illustrations by Tim Robinson. 1805 Explorer William Clark reaches the Pacific Ocean and pens the badly spelled line "Oceania in view. O the joy! Hey, he was an explorer, not a spelling bee champion." 1836 Mexican general Santa Anna surrounds the Alamo, trapping 180 Texans inside and prompting Texan William Travis to declare "I shall never surrender or retreat." 1861 Two railroad companies, one starting in the West and one in the East, start a race to lay the most track and create a transcontinental railroad. With a storyteller's voice and attention to the details that make history real and interesting, Steve Sheinkin delivers the wild facts about America's greatest adventure. From the Louisiana Purchase (remember if you're negotiating a treaty for your country, play it cool) to the gold rush (there were only three ways to get to California, all of them bad to the life of the cowboy), the Indian wars, and the everyday happenings that defined living on the frontier, an engaging medley of anecdotes about the Wild West in nine lively chapters, starting with the Louisiana Purchase and ending with the Lakota massacre at Wounded Knee in 1890. Casual vignettes of famous figures and ordinary people come to life. School

Library Journal Sheinkin builds his conversational narrative around stories of the men and women who peopled the west with particular attention given to African Americans Chinese workers and everyday farmers and cowboys There s plenty of humor here but Sheinkin s strength is his ability to transition between events The Horn Book Also by Steve Sheinkin Bomb The Race to Build and Steal the World s Most Dangerous Weapon The Notorious Benedict Arnold A True Story of Adventure Heroism Treachery The Port Chicago 50 Disaster Mutiny and the Fight for Civil Rights Undeclared Jim Thorpe and the Carlisle Indian School Football Team Most Dangerous Daniel Ellsberg and the Secret History of the Vietnam War King George What Was His Problem Everything Your Schoolbooks Didn t Tell You About the American Revolution Two Miserable Presidents Everything Your Schoolbooks Didn t Tell You About the Civil War Born to Fly The First Women s Air Race Across America So Rugged and Mountainous Will Bagley,2012-10-09 The story of America s westward migration is a powerful blend of fact and fable Over the course of three decades almost a million eager fortune hunters pioneers and visionaries transformed the face of a continent and displaced its previous inhabitants The people who made the long and perilous journey over the Oregon and California trails drove this swift and astonishing change In this magisterial volume Will Bagley tells why and how this massive emigration began While many previous authors have told parts of this story Bagley has recast it in its entirety for modern readers Drawing on research he conducted for the National Park Service s Long Distance Trails Office he has woven a wealth of primary sources personal letters and journals government documents newspaper reports and folk accounts into a compelling narrative that reinterprets the first years of overland migration Illustrated with photographs and historical maps So Rugged and Mountainous is the first of a projected four volume history Overland West The Story of the Oregon and California Trails This sweeping series describes how the Road across the Plains transformed the American West and became an enduring part of its legacy And by showing that overland emigration would not have been possible without the cooperation of Native peoples and tribes it places American Indians at the center of trail history not on its margins
