Contemporary France David Howarth, Georgios Varouxakis, 2014-03-18. At least since the French Revolution, France has the peculiar distinction of simultaneously fascinating, charming and exasperating its neighbours and foreign observers. Contemporary France provides an essential introduction for students of French politics and society, exploring contemporary developments while placing them in a deeper historical, intellectual, cultural and social context that makes for insightful analysis. Thus, chapters on France's economic policy and welfare state, its foreign and European policies and its political movements and recent institutional developments are informed by an analysis of the country's unique political and institutional traditions, distinct forms of nationalism and citizenship, dynamic intellectual life and recent social trends. Summaries of key political, economic and social movements and events are displayed as exhibits.

Rapport d'information sur les liens entre le lycée et l'enseignement supérieur Emeric Bréhier, commission des affaires culturelles, 2015-07-08. L'articulation insuffisante entre le secondaire et le supérieur se traduit par un choc important des étudiants de première année et par de nombreuses réorientations. Partant de ce constat, la mission d'information créée le 10 décembre 2014 par la commission des affaires culturelles et de l'éducation propose dans son rapport plusieurs pistes regroupées en 33 propositions. La refonte du processus d'orientation apparaissant comme une des clefs de la réussite, il convient notamment d'organiser le plus tôt possible l'information des lycéens et de leurs familles sur les métiers et les professions d

encourager l'ouverture des établissements d'enseignement sur le monde professionnel et d'améliorer l'information des enseignants lors de leur formation initiale et continue sur les filières du supérieur et sur les métiers pour qu'ils conseillent au mieux les élèves. Mais il faut également atténuer la rupture pédagogique entre le secondaire et le supérieur en renforçant la coopération entre les équipes éducatives d'ouvrir les cursus d'études en donnant chacun le droit à l'erreur et la réorientation et sécuriser les parcours de formation. Relever le défi de poursuivre l'élévation du niveau de qualification de la population tout en favorisant la réussite du plus grand nombre appelle des changements profonds dans le continuum de formation entre le lycée et l'enseignement supérieur qui ne se feront pas sans une évolution réelle des mentalités. **Cambridge IGCSE™ French**

Economic Surveys: France 2024 OECD, 2024-07-10 France has faced two significant successive shocks: the COVID-19 pandemic and the increase in inflation. Emergency government measures were decisive in protecting business jobs and purchasing power but at a high fiscal cost. Efforts to reduce public spending will be key to lower government debt. Lifting productivity growth hinges on a wider diffusion of digital technologies, reduced regulatory barriers and stronger innovation.
