The Complexities of Police Corruption Marilyn Corsianos,2012-08-31 The Complexities of Police Corruption provides
a comprehensive examination of the role of gender as it relates to police corruption crime control and policing as an
institution Author Marilyn Corsianos examines different forms of corruption including some behaviors that are generally not
recognized as corruption by police departments such as selective law enforcement racial profiling gender bias and other
discriminatory police practices against marginalized populations The book also explores the role of police culture in
preserving and defending misconduct and digs into the thorny question of why significantly fewer women are involved in
police corruption Throughout the book excerpts from interviews with 32 former police offers illustrate the complex ways that
gender construction is connected to police corruption and shows how policing as an institution creates corruption risks The
Complexities of Police Corruption is a challenging and insightful book about the intersections between gender and corruption

The Convention on International Trade of Endangered Species Jonathan Liljeblad,2014-01-14 Debates over U S
government policy frequently follow a philosophy of devolution in authority from federal government to local government
This concept opens the possibility of greater local involvement in national policy implementation and provides international
treaties an opportunity to advance global policy by incorporating the efforts of local actors into their implementation
framework Much of international policy involves enforcement through international to national linkages forming an
implementation chain but devolution offers the potential to extend the implementation chain by providing national to local
linkages This book explores the nature of such linkages taking as a case study the Convention on the International Trade in
Endangered Species CITES via its domestic analog in the U S the Endangered Species Act ESA The analysis employs both
quantitative and qualitative methods including interviews surveys statistical analysis and document review The author
concludes that while the framework of CITES enforcement in the U S allows for national to local extension of the CITES
implementation chain it also presents challenges that should be addressed by international policymakers who consider
devolution as a way of assisting global policy The book includes a Foreword by Scott A Frisch a professor of political science

and chair of the department at California State University Channel Islands Frisch notes that in this book Jonathan Liljeblad offers an enlightening and long overdue look at the issue of local implementation of international policy Liljeblad is able to arrive at insightful conclusions as well as concrete recommendations for policymakers wishing to improve coordination and execution of international policies that rely on local governments for their implementation He concludes Liljeblad s recommendations would foster a climate of greater understanding of the connections between international and domestic policy and should be heeded by all levels of government to remove unnecessary roadblocks that can derail implementation A new study in the international protection of animal and plant species presented by Quid Pro Books Hearings, Reports and Prints of the Senate Committee on Government Operations United States.
