Lost Ancient Technology Of Peru And Bolivia:

Lost Ancient Technology of Peru and Bolivia Brien Foerster, 2013-09 Peru and Bolivia have become very popular tourist destinations because mainly of the amazing stone remains left behind by cultures such as the Inca Machu Picchu is the number one popular site for travelers to South America yet how many of these visitors realize that many of the famous and less known megalithic sites are much older than cultures such as the Inca and thus were not made by them In this book Brien Foerster shows you that places such as Cusco Puma Punku Tiwanaku and even Machu Picchu were initially constructed thousands of years before the Inca or other famous people existed Mounting scientific evidence shows that prior to the end of the Ice Age 12 000 years ago very advanced cultures existed in Peru and Bolivia and had advanced high technology They shaped stone in ways that we can not

Lost Ancient Technology of Peru and Bolivia Brien Foerster, 2018-05-09 Megalithic structures located in Peru and Bolivia especially in the highlands of both countries tend to be attributed to the Inca and Tiwanaku cultures However how such people were able to quarry transport and shape multi ton blocks of very hard stone such as granite and basalt when at best they had bronze tools can not be explained in any way shape or form A very simple fact is that the tool must be harder than the material being worked on and bronze is much softer than granite or basalt This we have no choice but to accept that an advanced culture or cultures existed in these areas long before 2000 years ago and had technology at least as advanced as that in the 21st century Also there is abundant evidence that one or a series of cataclysms occurred and damaged ALL of the megalithic sites including the core area of Machu Picchu This book is volume 2 in an ongoing series *Lost Ancient Technology Of Peru And Bolivia* Brien Foerster, 2012-11-30 Ancient Peru and Bolivia like Egypt contain enigmas and mysteries especially in stone which most conventional scholarship can't explain Rather than simply being the exclusively the works of cultures such as the Inca there are many megalithic wonders which defy both the conventional time lines and known levels of technology attributed to the ancient people of South America The most glaring example is most likely Puma Punku near the shore of Lake Titicaca in Bolivia which hints at not only being several thousand years old but also seems to have been achieved using what we would call high level machine technology There are also many sites in Peru and especially near the city of Cusco that also show the hall marks of having been made by cultures using technology supposedly not known by cultures such as the Inca A massive collection of photographic and detailed analysis is contained in this book as well as on site observations by leading engineers **Lost Ancient Technology of Peru and Bolivia** Brien Foerster, 2015-09-27 Peru and Bolivia have become very popular tourist destinations because mainly of the amazing stone remains left behind by cultures such as the Inca Machu Picchu is the number one popular site for travelers to South America yet how many of these visitors realize that many of the famous and less known megalithic sites are much older than cultures such as the Inca and thus were not made by them In this book Brien Foerster shows you that places such as Cusco Puma Punku Tiwanaku and even Machu Pic chu were initially constructed thousands of years before the
