Mathematics under the Microscope Alexandre Borovik, 2010 The author's goal is to start a dialogue between mathematicians and cognitive scientists He discusses from a working mathematician's point of view the mystery of mathematical intuition why are certain mathematical concepts more intuitive than others To what extent does the small scale structure of mathematical concepts and algorithms reflect the workings of the human brain What are the elementary particles of mathematics that build up the mathematical universe The book is saturated with amusing examples from a wide range of disciplines from turbulence to error correcting codes to logic as well as with just puzzles and brainteasers Despite the very serious subject matter the author's approach is lighthearted and entertaining This is an unusual and unusually fascinating book Readers who never thought about mathematics after their school years will be amazed to discover how many habits of mind ideas and even material objects that are inherently

mathematical serve as building blocks of our civilization and everyday life A professional mathematician reluctantly breaking the daily routine or pondering on some resisting problem will open this book and enjoy a sudden return to his or her young days when mathematics was fresh exciting and holding all promises And do not take the word microscope in the title too literally in fact the author looks around in time and space focusing in turn on a tremendous variety of motives from mathematical memes genes of culture to an unusual life of a Hollywood star Yuri I Manin Max Planck Institute of Mathematics Bonn and Northwestern University

The Athenaeum ,1903 Daily Graphic Henry Ofori,1969-05-08 *Not Light, but Fire* Matthew Kay,2023-10-10 Do you feel prepared to initiate and facilitate meaningful productive dialogues about race in your classroom Are you looking for

practical strategies to engage with your students Inspired by Frederick Douglass s abolitionist call to action it is not light that is needed but fire Matthew Kay has spent his career learning how to lead students through the most difficult race conversations Kay not only makes the case that high school classrooms are one of the best places to have those conversations but he also offers a method for getting them right providing candid guidance on How to recognize the difference between meaningful and inconsequential race conversations How to build conversational safe spaces not merely declare them How to infuse race conversations with urgency and purpose how to thrive in the face of unexpected challenges How administrators might equip teachers to thoughtfully engage in these conversations With the right blend of reflection and humility Kay asserts teachers can make school one of the best venues for young people to discuss race Johnson's English Dictionary Samuel Johnson,1829 There Was Another Country W. Forje,2021-08-11 In this comprehensive well reasoned critical richly documented and boldly argued account on the Anglophone Southern Cameroons Ambazonia crisis John Forje a foremost scholar of identity politics in Cameroon offers insightful explorations and explanations of histories and cultures of telling truth to power that have come to be associated with the people of the English speaking region of Cameroon The book offers realistic perspectives for the reinstitution of justice equality and democratic governance in a country of plenty but lavishing in endemic underdevelopment Forje argues among other things that the current Anglophone crisis is the exhibition of one reality that more than half a century after independence and unification most Cameroonians are grossly disillusioned with their leaders The country has had only two presidents since independence Ahmadou Ahidjo and Paul Biya with the latter occupying the presidency for 40 years since 1982 and counting If something concrete is not undertaken now the cleavages of division would widen to a dangerous end Dark clouds hang over the future of the country Uncertainty about national unity and stability is hardly a solid foundation for a country aspiring to be an emerging polity by 2035 There is an urgent need for a broader dimension of political dispensation in Cameroon The book calls for proper soul searching critical analysis and a new comprehensive and visionary mindset to build a new country out of the ashes of the existing crumbling or failed polity The need to re rail Cameroon on the democratic train and on the path of sustainable development cannot be overemphasized Waldie's Select Circulating Library ,1833 The Examiner ,1865 English Dictionary Samuel Johnson,1835 Congressional Record United States. Congress,1991 **The Friend** ,1902
