

8th Grade Pre-Comp Study Guide

Studying Technique and Notes: PLEASE READ FIRST

1. First off, take a deep breath. It will be ok. Yes, this exam will impact your grade, but all the hard work you have put into the trimester is much more heavily weighed. Remember, this exam impacts only your trimester 2 grade.
2. I promise not to make the Native portion of your exam too hard. It will be all multiple choice, and there will be no surprises. There will be no trick questions. You will do just fine. Now take another deep breath. You've got this! Panicking and stressing too much can only hurt you in the long run.
3. There are a few more topics we will be cov'ing after the break, so you do not have these notes yet. You can try to review on your own from the textbook, or just wait until we cover the material. These topics should technically be a review from last year.
4. I will be giving a mock exam during Review Week that will test you on everything listed below. It will NOT affect your grade, but will simply serve as a tool to help you understand your strengths and weaknesses.
5. Now, for the studying: Pull out everything you have archived so far, as well as your current notes.
6. Review all the notes from class on a specific topic. Your notes are your friend. Go one topic at a time. Do not try to study everything at once. **You do NOT need to review every topic in your notes. Focus your energy only on those listed below.**
7. Pull out all the homework, in-class assignments, quizzes, and exams associated with that topic.
8. Cover the answers, and try to redo all the problems. If you are getting the answers correct, it is safe to say that you have a good handle on it. If you are making mistakes, or aren't sure how to answer a question, this is a big clue that you should look over the notes and examples again. Don't try to cheat and peek at the answers while you test yourself! At this point you are only cheating yourself.
9. If you found something you are struggling with, and you feel the notes and handouts are not enough, grab the textbook and look over the section that is associated with the subject matter and read through it.
10. Additional practice problems can be found at the end of each chapter and are listed below. **Answers to the practice review questions can be found at the end of the textbook.**
11. Repeat for each topic listed below.

Topic	Know	Chapters/End of Chapter Practice Problems
Significant Figures	<ul style="list-style-type: none">• Understand addition/subtraction rules vs multiplication/division rules• Know which are significant when it comes to leading zeros vs. trailing zeros vs. sandwiched zeros.	Ch. 2.2 Practice: All section examples, plus #50-61
