to a similar population in Tel Aviv Communism and ethnicity intermarriage and group blending American Jewish dialogue and German Jewish migration in the interwar decades Leading academics employing a variety of social scientific methods and historical paradigms propose to enhance the clarity of definitions used to relate ethnic identity to the Jews They point to ethnic experience in a variety of different social manifestations language use in social context marital behavior across generations spatial and occupational differentiation in relation to other members of society and new immigrant communities as sub ethnic units within larger Jewish populations They also ponder the relevance of individual experience and preference as compared to the weight of larger socializing factors Taken as a whole this work offers revisionist views on the utility of terms like Jewish ethnicity that were given wider scope by scholars in the 1960s 70s and 80s **Painting Shakespeare**
