### **Communication Strategies for Corporate Leaders**

Pragyan Rath, Apoorva Bharadwaj, 2017-11-06. Communication is key to success in every aspect of life and ever so in a competitive business environment. This book examines managerial communication from seminal theoretical and demonstrative vantage points through interdisciplinary amalgamation of sciences and the liberal arts. It presents new paradigms of managerial communication in the form of manoeuvres that can act as game changers in tug-of-war business situations including difficult negotiations, conflicts, and interpersonal dissonance that characterise the day-to-day corporate workplace tenor. This volume develops persuasion strategies based on argumentation tactics derived, for example, from legal cross-examination. It introduces problematisation and deconstruction as effective communication tools into mainstream managerial discourse. It employs Harvard Business School cases to demonstrate problem-solving skills which will further serve as a guide to writing business reports, plans, and proposals. It positions business writing methods as taxonomical tenets that can help tackle complex business scenarios. It draws business diagnostic procedures from diverse fields such as Sherlock Holmes from popular culture and Jared M. Diamond from ecology. This book will be a significant resource for business communication practitioners, especially corporate managers and leaders, sales and marketing professionals, and policymakers. It will be of interest to teachers and students alike in business communication, organization behaviour, human resource management, and marketing communications. It will act as a useful aid for classroom efficacy for teachers and academics.

**Foundations of Finance**, 2004. **Getting It Right**. Viva Bartkus, Ed Conlon, 2008-07-23. To be a successful business leader, executives need to make values-based problem solving a habit of mind, argue management experts at Notre Dame professors Viva Bartkus and Ed Conlon. In *Getting It Right*, Bartkus and Conlon draw on insights from consulting, management, and academia to deliver a powerful message: no matter how chaotic the marketplace, leaders can still address even the most staggering challenges in a calm and confident manner.
