Rural regions are experiencing fundamental challenges to their ways of life and social fabric as traditional land based occupations are in decline and younger and better educated rural residents migrate to cities for greater work social and cultural opportunities Rural tourism offers a possible solution to the problems associated with lost economic opportunities and population decline that accompany the waning of agriculture Many governments and regional authorities have embraced rural tourism as an opportunity to bring new money into rural regions stimulating growth providing employment opportunities and thus beginning to halt rural decline However the possibilities of rural tourism to promote rural regeneration have been criticised for being over stated and unrealistic Rural tourism has frequently been found to under deliver in terms of expected economic benefits and job creation and may sometimes exacerbate local hierarchies and inequalities This edited collection questions the contribution tourism can and does make to rural regions Drawing on a range of geographically diverse research driven case studies the book is thematically organised to explore a variety of issues relevant to rural tourism from the perspectives of local communities businesses government policy makers and the tourists themselves **The Rough Guide to New Zealand** Catherine Le Nevez,Paul Whitfield,Tony Mudd,2012-09-03
