NATIONALISTS OVERTHROW QING DYNASTY**Who was Sun Yixian?**

The early 20th century was a time of change in China. Many Chinese resented the great control that foreign nations had over their economy. Some wanted to modernize China. They hoped it could regain power.

One of the groups involved in this push was the **Kuomintang**, or Nationalist Party, led by **Sun Yixian**. In 1912, the Kuomintang overthrew the Qing dynasty. A republic was established, and Sun was made the president.

Sun wanted political and economic rights for all Chinese people. He also wanted an end to the foreign control of China. But Sun did not have the support of the military. Keith Schoppa, 2000-08-05 China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends **The Guide Post** ,1975 *Farmers' Guide* ,1898 **The Everlasting Empire** Yuri Pines, 2012-05-27 Established in 221 BCE the Chinese empire lasted for 2 132 years before being replaced by the Republic of China in 1912 During its two millennia the empire endured internal wars foreign incursions alien occupations and devastating rebellions yet fundamental institutional sociopolitical and cultural features of the empire remained intact The Everlasting Empire traces the roots of the Chinese empire s exceptional longevity and unparalleled political durability

and shows how lessons from the imperial past are relevant for China today Yuri Pines demonstrates that the empire survived and adjusted to a variety of domestic and external challenges through a peculiar combination of rigid ideological premises and their flexible implementation The empire's major political actors and neighbors shared its fundamental ideological principles such as unity under a single monarch hence even the empire's strongest domestic and foreign foes adopted the system of imperial rule Yet details of this rule were constantly negotiated and adjusted Pines shows how deep tensions between political actors including the emperor the literati local elites and rebellious commoners actually enabled the empire's basic institutional framework to remain critically vital and adaptable to ever changing sociopolitical circumstances As contemporary China moves toward a new period of prosperity and power in the twenty first century Pines argues that the legacy of the empire may become an increasingly important force in shaping the nation's future trajectory Tajikistan Foreign Policy and Government Guide Volume 1 Strategic Information and Developments IBP USA,2013-08 2011 Updated Reprint Updated Annually Tajikistan Foreign Policy and Government Guide *Real Estate Record and Builders' Guide* ,1900
