

Viceroyalty of New Spain in 1794 - Virreinato de la Nueva España

Guide To The Historical Geography Of New Spain

Susan Schroeder, Stafford Poole

Guide To The Historical Geography Of New Spain:

A Guide to the Historical Geography of New Spain Peter Gerhard, 1993-01-01 A Guide to the Historical Geography of New Spain is a basic reference work on Mexican colonial history Completely revised it examines the administrative divisions constituting the government of New Spain now central and southern New Mexico as they were before the introduction of the intendancy system in 1786 **A Guide to the Historical Geography of New Spain**, 1972 *Religion in New Spain*

Susan Schroeder, Stafford Poole, 2007 Religion in New Spain presents an overview of the history of colonial religious culture and encompasses aspects of religion in the many regions of New Spain In reading these essays it is clear the Spanish conquest was not the end all of indigenous culture that the Virgin of Guadalupe was a myth in the making by locals as well as foreigners that nuns and priests had real lives and that the institutional colonial church even post Trent was seldom if ever above or beyond political or economic influence Susan Schroeder and Stafford Poole have divided the presentations into seven parts that represent general categories spanning the colonial era Encounters Accommodation and Outright Idolatry Native Sexuality and Christian Morality Believing in Miracles Taking the Veil and New Realities Guardian of the Christian Society The Holy Office of the Inquisition Racism Judaizing and Gambling Music and Martyrdom on the Northern Frontier and Tangential Christianity on Other Frontiers Business and Politics as Usual Sacred space can be anywhere and might not be bound by walls and ceilings As the authors of these essays show religion is often an attempt to reconcile the mysterious and unmanageable forces of nature such as storms droughts floods infestations of pests epidemic diseases and sicknesses it is an attempt to control the uncontrollable **The AOxford Handbook of Borderlands of the Iberian World** Danna A.

Levin Rojo, Cynthia Radding, 2019-11-06 This collaborative multi authored volume integrates interdisciplinary approaches to ethnic imperial and national borderlands in the Iberian World 16th to early 19th centuries It illustrates the historical processes that produced borderlands in the Americas and connected them to global circuits of exchange and migration in the early modern world The book offers a balanced state of the art educational tool representing innovative research for teaching and scholarship Its geographical scope encompasses imperial borderlands in what today is northern Mexico and southern United States the greater Caribbean basin including cross imperial borderlands among the island archipelagos and Central America the greater Paraguayan river basin including the Gran Chaco lowland Brazil Paraguay and Bolivia the Amazonian borderlands the grasslands and steppes of southern Argentina and Chile and Iberian trade and religious networks connecting the Americas to Africa and Asia The volume is structured around the following broad themes environmental change and humanly crafted landscapes the role of indigenous allies in the Spanish and Portuguese military expeditions negotiations of power across imperial lines and indigenous chiefdoms the parallel development of subsistence and commercial economies across terrestrial and maritime trade routes labor and the corridors of forced and free migration that led to changing social and ethnic identities histories of science and cartography Christian missions music and visual arts gender and sexuality

emphasizing distinct roles and experiences documented for men and women in the borderlands While centered in the colonial era it is framed by pre contact Mesoamerican borderlands and nineteenth century national developments for those regions where the continuity of inter ethnic relations and economic networks between the colonial and national periods is particularly salient like the central Andes lowland Bolivia central Brazil and the Mapuche Pehuenche captaincies in South America All the contributors are highly recognized scholars representing different disciplines and academic traditions in North America Latin America and Europe

Pox Americana Elizabeth A. Fenn, 2002-10-02 The astonishing hitherto unknown truths about a disease that transformed the United States at its birth A horrifying epidemic of smallpox was sweeping across the Americas when the American Revolution began and yet we know almost nothing about it Elizabeth A Fenn is the first historian to reveal how deeply variola affected the outcome of the war in every colony and the lives of everyone in North America By 1776 when military action and political ferment increased the movement of people and microbes the epidemic worsened Fenn s remarkable research shows us how smallpox devastated the American troops at Quebec and kept them at bay during the British occupation of Boston Soon the disease affected the war in Virginia where it ravaged slaves who had escaped to join the British forces During the terrible winter at Valley Forge General Washington had to decide if and when to attempt the risky inoculation of his troops In 1779 while Creeks and Cherokees were dying in Georgia smallpox broke out in Mexico City whence it followed travelers going north striking Santa Fe and outlying pueblos in January 1781 Simultaneously it moved up the Pacific coast and east across the plains as far as Hudson s Bay The destructive desolating power of smallpox made for a cascade of public health crises and heartbreaking human drama Fenn s innovative work shows how this mega tragedy was met and what its consequences were for America

The Oxford Handbook of Borderlands of the Iberian World Danna A. Levin Rojo, Cynthia Radding, 2019-11-06 This Handbook integrates innovative interdisciplinary approaches to the production of Iberian imperial borderlands in the Americas from southwestern U S to Patagonia and their connections to trade and migratory circuits extending to Asia and Africa In this volume borderlands comprise political boundaries spaces of ethnic and cultural exchange and ecological transitions

Mexico: Volume 2, The Colonial Era Alan Knight, 2002-10-07 This 2002 book the second in a three volume history of Mexico covers the period 1521 to 1821

Moquis and Kastiilam Thomas E. Sheridan, Stewart B. Koyiyumptewa, Anton Daughters, Dale S. Brenneman, T. J. Ferguson, Leigh J. Kuwanwisiwma, Leigh Wayne Lomayestewa, 2015-11-12 The first of a two volume series Moquis and Kastiilam tells the story of the encounter between the Hopis who the Spaniards called Moquis and the Spaniards who the Hopis called Kastiilam from the first encounter in 1540 until the eve of the Pueblo Revolt of 1680 By comparing and contrasting Spanish documents with Hopi oral traditions the editors portray a balanced presentation of their shared past Translations of sixteenth seventeenth and eighteenth century documents written by Spanish explorers colonial officials and Franciscan missionaries tell the perspectives of the European visitors and oral traditions recounted by Hopi elders reveal the

Indigenous experience The editors argue that the Spanish record is incomplete and only the Hopi perspective can balance the story The Spanish documentary record and by extension the documentary record of any European or Euro American colonial power is biased and distorted according to the editors who assert there are enormous silences about Hopi responses to Spanish missionization and colonization The only hope of correcting those weaknesses is to record and analyze Hopi oral traditions which have been passed down from generation to generation and give voice to Hopi values and Hopi social memories of what was a traumatic period in their past Spanish abuses during missionization which the editors address specifically and directly as the sexual exploitation of Hopi women suppression of Hopi ceremonies and forced labor of Hopis drove Hopis to the breaking point inspiring a Hopi revitalization that led them to participate in the Pueblo Revolt Those abuses the revolt and the resistance that followed remain as open wounds in Hopi society today *Trail of Footprints* Alex Hidalgo, 2019-07-12 *Trail of Footprints* offers an intimate glimpse into the commission circulation and use of indigenous maps from colonial Mexico A collection of one hundred largely unpublished maps from the late sixteenth to the eighteenth centuries made in the southern region of Oaxaca anchors an analysis of the way ethnically diverse societies produced knowledge in colonial settings Mapmaking proposes Hidalgo formed part of an epistemological shift tied to the negotiation of land and natural resources between the region's Spanish Indian and mixed race communities The craft of making maps drew from social memory indigenous and European conceptions of space and ritual and Spanish legal practices designed to adjust spatial boundaries in the New World Indigenous mapmaking brought together a distinct coalition of social actors Indian leaders native towns notaries surveyors judges artisans merchants muleteers collectors and painters who participated in the critical observation of the region's geographic features Demand for maps reconfigured technologies associated with the making of colorants adhesives and paper that drew from Indian botany and experimentation trans Atlantic commerce and Iberian notarial culture The maps in this study reflect a regional perspective associated with Oaxaca's decentralized organization its strategic position amidst a network of important trade routes that linked central Mexico to Central America and the ruggedness and diversity of its physical landscape **From Colony to Nationhood in Mexico** Sean F. McEnroe, 2012-06-18 In November 1782 Vicente Gonzales de Santianes the governor of Nuevo Leon received a sheaf of documents from a protracted legal dispute in the Indian town of San Miguel de Aguayo At first glance the case seems so utterly commonplace as to be beneath the notice of the region's chief magistrate One of San Miguel's Tlaxcalan stoneworkers had been accused of an adulterous liaison with a townswoman Provided by publisher *Conquest* Massimo Livi Bacci, 2008-01-08 The author shows how not only the imported diseases but also a series of economic and social factors played a role in the disastrous decline on the native populations in the Americas *Spain and Portugal in the New World* Lyle N. McAlister, 1984 *Spain and Portugal in the New World 1492-1700* was first published in 1984 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the

original University of Minnesota Press editions Spanish and Portuguese expansion substantially altered the social political and economic contours of the modern world In his book Lyle McAlister provides a narrative and interpretive history of the exploration and settlement of the Americas by Spain and Portugal McAlister divides this period and the book into three parts First he describes the formation of Old World societies with particular attention to those features that influenced the directions and forms of overseas expansion Second he traces the dynamic processes of conquest and colonization that between 1492 and about 1570 firmly established Spanish and Portuguese dominion in the New World The third part deals with colonial growth and consolidation down to about 1700 McAlister's main themes are the post conquest territorial expansion that established the limits of what later came to be called Latin America the emergence of distinctively Spanish and Portuguese American societies and economies the formation of systems of imperial control and exploitation and the ways in which conflicts between imperial and American interests were reconciled This comprehensive history with its extensive bibliographic essay and attention to historiographic issues will be a standard reference for students and scholars of the period

The Coronado Expedition to Tierra Nueva Richard Flint, Shirley Cushing Flint, 2004-05-20 The Coronado Expedition to Tierra Nueva is an engaging record of key research by archaeologists ethnographers historians and geographers concerning the first organized European entrance into what is now the American Southwest and northwestern Mexico In search of where the expedition went and what peoples it encountered this volume explores the fertile valleys of Sonora the basins and ranges of southern Arizona the Zuni pueblos and the Rio Grande Valley of New Mexico and the Llano Estacado of the Texas panhandle The twenty one contributors to the volume have pursued some of the most significant lines of research in the field in the last fifty years their techniques range from documentary analysis and recording traditional stories to detailed examination of the landscape and excavation of campsites and Indian towns With more confidence than ever before researchers are closing in on the route of the conquistadors

The Oxford Handbook of the Aztecs Deborah L. Nichols, Enrique Rodríguez-Alegría, 2017 The Oxford Handbook of the Aztecs the first of its kind provides a current overview of recent research on the Aztec empire the best documented prehispanic society in the Americas Chapters span from the establishment of Aztec city states to the encounter with the Spanish empire and the Colonial period that shaped the modern world Articles in the Handbook take up new research trends and methodologies and current debates The Handbook articles are divided into seven parts Part I Archaeology of the Aztecs introduces the Aztecs as well as Aztec studies today including the recent practice of archaeology ethnohistory museum studies and conservation The articles in Part II Historical Change provide a long term view of the Aztecs starting with important predecessors the development of Aztec city states and imperialism and ending with a discussion of the encounter of the Aztec and Spanish empires Articles also discuss Aztec notions of history writing and time Part III Landscapes and Places describes the Aztec world in terms of its geography ecology and demography at varying scales from households to cities Part IV Economic and Social Relations in the Aztec

Empire discusses the ethnic complexity of the Aztec world and social and economic relations that have been a major focus of archaeology Articles in Part V Aztec Provinces Friends and Foes focuses on the Aztec s dynamic relations with distant provinces and empires and groups that resisted conquest and even allied with the Spanish to overthrow the Aztec king This is followed by Part VI Ritual Belief and Religion which examines the different beliefs and rituals that formed Aztec religion and their worldview as well as the material culture of religious practice The final section of the volume Aztecs after the Conquest carries the Aztecs through the post conquest period an increasingly important area of archaeological work and considers the place of the Aztecs in the modern world

Return to Aztlan Danna A. Levin Rojo, 2014-03-10 Long before the Spanish colonizers established it in 1598 the Kingdom of Nuevo M xico had existed as an imaginary world and not the one based on European medieval legend so often said to have driven the Spaniards ambitions in the New World What the conquistadors sought in the 1500s it seems was what the native Mesoamerican Indians who took part in north going conquest expeditions also sought a return to the Aztecs mythic land of origin Aztlan Employing long overlooked historical and anthropological evidence Danna A Levin Rojo reveals how ideas these natives held about their own past helped determine where Spanish explorers would go and what they would conquer in the northwest frontier of New Spain present day New Mexico and Arizona Return to Aztlan thus remaps an extraordinary century during which for the first time Western minds were seduced by Native American historical memories Levin Rojo recounts a transformation of an abstract geographic space the imaginary world of Aztlan into a concrete sociopolitical place Drawing on a wide variety of early maps colonial chronicles soldier reports letters and native codices she charts the gradual redefinition of native and Spanish cultural identity and shows that the Spanish saw in Nahua or Aztec civilization an equivalence to their own A deviation in European colonial naming practices provides the first clue that a transformation of Aztlan from imaginary to concrete world was taking place Nuevo M xico is the only place name from the early colonial period in which Europeans combined the adjective new with an American Indian name With this toponym Spaniards referenced both Mexico Tenochtitlan the indigenous metropolis whose destruction made possible the birth of New Spain itself and Aztlan the ancient Mexicans place of origin Levin Rojo collects additional clues as she systematically documents why and how Spaniards would take up native origin stories and make a return to Aztlan their own goal and in doing so overturns the traditional understanding of Nuevo M xico as a concept and as a territory A book in the Latin American and Caribbean Arts and Culture initiative supported by the Andrew W Mellon Foundation

[The Oxford Handbook of Latin American History](#) Jose C. Moya, 2011 This Oxford Handbook comprehensively examines the field of Latin American history

[Mexico and the United States](#) William Dirk Raat, Michael M. Brescia, 2010-04-15 Drug wars NAFTA presidential politics and heightened attention to Mexican immigration are just some of the recent issues that are freshly interpreted in this updated survey of Mexican U S relations The fourth edition has been completely revised and offers a lively engaging and up to date analysis of historical patterns of change and continuity as well as contemporary issues Ranging from

Mexican antiquity and the arrival of the Spanish and British to the present day administrations of Felipe Caldern and Barack Obama historians Dirk Raat and Michael Brescia evaluate the political economic and cultural trends and events that have shaped the ways that Mexicans and Americans have regarded each other over the centuries Raat and Brescia pay special attention to the factors that have subordinated Mexico not only to the colossus of the North but to many other players in the global economy They also provide a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history The bibliographical essay has been revised to reflect current research and scholarship

Mesoamerican Voices Matthew Restall, Lisa Sousa, Kevin Terraciano, 2005-11-07 A 2006 collection of indigenous language writings from central Mexico and Guatemala written during the colonial period

The Other Rebellion Eric Van Young, 2002-04-01 Mexico's movement toward independence from Spain was a key episode in the dissolution of the great Spanish Empire and its accompanying armed conflict arguably the first great war of decolonization in the nineteenth century This book argues that in addition to being a war of national liberation the struggle was also an internal war pitting classes and ethnic groups against each other an intensely localized struggle by rural people especially Indians for the preservation of their communities While local and national elites focused their energies on wresting power from colonial authorities and building a new nation state rural people were often much more concerned about keeping village identities and lifeways intact against the forces of state expansion commercialization and modernization Conventional wisdom says that Mexican independence was achieved through a cross class and cross ethnic alliance between creole ideologues military leaders and a mass following This book shows that this is not only an incomplete explanation of what went on in Mexico during the decade of armed confrontation that led to Mexico's independence but also a distortion of Mexican social and cultural history The author delves deeply into life histories previously unexamined texts statistical social profiling and local historical ethnography to examine the dynamics of popular rebellion He focuses especially on Mexico's Indian villages but also considers the role of parish priests as insurgent leaders local conflicts over land politics and religious symbols the influence of messianism and millenarianism in popular insurgent ideology and the everyday language of political upheaval

Colonial Spanish America Leslie Bethell, 1987-05-07 The complete Cambridge History of Latin America presents a large scale authoritative survey of Latin America's unique historical experience from the first contacts between the native American Indians and Europeans to the present day Colonial Spanish America is a selection of chapters from volumes I and II brought together to provide a continuous history of the Spanish Empire in America from the late fifteenth to the early nineteenth centuries The first three chapters deal with conquest and settlement and relations between Spain and its American Empire the final six with urban development mining rural economy and society including the formation of the hacienda the internal economy and the impact of Spanish rule on Indian societies Bibliographical essays are included for all chapters The book will be a valuable text for both students and teachers of Latin American history
