Actively Unwoke Karlyn Borysenko, 2022-04-26 For the last several years we've watched as woke political activists have staged destructive protests, destroyed businesses, hurled accusations of racism and white supremacy around as if those terms mean nothing and publicly bullied and canceled anyone who disagrees with them. These authoritarians claim to represent social justice, but they are about one thing: power. Their goal is nothing short of cultural revolution. So what do we do about it? Actively Unwoke explains what's going on and decodes the language the woke are using so that you can understand what we're up against. To inspire you and explore actionable strategies you can take, Karlyn Borysenko looks at ways real people have fought back in the real world. This includes fighting back in the schools, knowing how to act when the woke come to work, taking a stand with your elected leaders, and even a few subversive strategies just for fun. This book also reveals how to survive cancellation: yes, it's possible, and how to take care of yourself as you join a ragtag group of misfits to do battle with the greatest existential threat of our time. If you ever wondered what you would have done during the Civil Rights movement or in 1930s Germany, the answer to that question lies in what you are doing now. This fight isn't about left or right, Democrat or Republican. It's not about liberal values or conservative values. It's about protecting American values. This book will give you everything you need to join the unwoke army. It's not enough to just be unwoke anymore; it's time to be actively unwoke. *Blueprint for Student Success* Susan J. Learning to Enjoy Literature Thomas M. McCann,John V. Knapp,2021-07-01 Students will not become enthusiastic readers of literature from a teacher simply assigning reading tasks and assessing the completion of the tasks especially when the assessment takes the form of threatened quizzes Instead as this book shows teachers have an obligation to reveal to learners the procedures that skilled

readers follow as they work with and enjoy literature and a further obligation to help learners to recognize some value in tackling complex works of literature

Academic Leadership in Higher Education Robert J. Sternberg, Elizabeth Davis, April C. Mason, Robert V. Smith, Jeffrey S. Vitter, Michele Wheatly, 2015-01-05 Now what should I do This is a question academic leaders ask themselves with great regularity As ironic as it may seem very few academic leaders have had any formal training in academic administration or in any kind of administration at all For the most part academic administrators learn on the job They also seek advice wherever they can get it The purpose of this book is to offer such advice The book is written both for academic administrators at all levels as well as for those who aspire to academic administration *Citizen Capitalism* Lynn A. Stout, Tamara Belinfanti, Sergio Alberto Gramitto, 2019-01-29 Corporations have a huge influence on the life of every citizen this book offers a visionary but practical plan to give every citizen a say in how corporations are run while also gaining some supplemental income It lays out a clear approach that uses the mechanisms of the private market to hold corporations accountable to the public This would happen through the creation of what the authors call the Universal Fund a kind of national democratic mega mutual fund Every American over eighteen would be entitled to a share and would participate in directing its share voting choices Corporations and wealthy individuals would donate stocks bonds cash or other assets to the fund just like they do to other philanthropic ventures now The fund would pay out dividends to its citizen shareholders that would grow as the fund grows The Universal Fund is undoubtedly a big idea but it is also eminently practical it uses the tools of capitalism not government to give all citizens a direct influence on corporate actions It would be a major institutional investor beholden not to a small elite group of stockholders pushing for short term gain but to everyone The fund would reward corporations that made sure their actions didn't harm people communities and the environment and it would enable them to invest in innovations that would take more than a few months to pay off Which is another reason corporations would donate to the fund they could be freed from the constant pressure to maximize their quarterly share price and would essentially be subsidized for doing good The authors demonstrate that our current economic rules force corporations to be shortsighted and even destructive because for most large investors nothing matters but share price The Universal Fund is designed to be a powerful positive balancing force making the world a better place and the United States a better nation
