Richard Pates, Diane Riley

Harm Reduction Games And Quiz:

Information Technology in Disaster Risk Reduction Terje Gjørseter, Jaziar Radianti, Yuko Murayama, 2023-05-28 This volume constitutes the refereed and revised post conference proceedings of the 7th IFIP WG 5.15 International Conference on Information Technology in Disaster Risk Reduction ITDRR 2022 held in Kristiansand Norway in October 2022. The 23 full papers presented were carefully reviewed and selected from 33 submissions. The papers focus on various aspects and challenges of coping with disaster risk reduction. The papers are categorized in the following topical subheadings: strategic disaster risk reduction, situational awareness, telecommunications, sensors and drones, collaborative emergency management, cybersecurity and privacy, earthquake and climate forecasting, social media analytics, community resilience. **Drug Addict Trivia Game** Thomas J. Rundquist, 2001-03 *Building Bottom-up Health and Disaster Risk Reduction Programmes* Emily Ying Yang Chan, 2018 Introductory to intermediate level textbook and reference book for healthcare professionals, fieldworkers, volunteers and students who are interested in promoting health and emergency and disaster risk reduction in Asia. **Spationomy** Vít Pászto, Carsten Jürgens, Polona Tominc, Jaroslav Burian, 2019-11-06 This open access book is based on Spationomy: Spatial Exploration of Economic Data, an interdisciplinary and international project in the frame of ERASMUS funded by the European Union. The project aims to exchange interdisciplinary knowledge in the fields of economics and geomatics. For the newly introduced courses, interdisciplinary learning materials have been developed by a team of lecturers from four different universities in three countries. In a first study block, students were taught methods from the two main research fields. Afterwards, the knowledge gained had to be applied in a project. For this international project, teams were formed consisting of one student from each university participating in the project. The achieved results were presented in a summer school a few months later. At this event, more methodological knowledge was imparted to prepare students for a final simulation game about spatial and economic decision making. In a broader sense, the chapters will present the methodological background of the project, give case studies and show how visualisation and the simulation game works. *Harm Reduction in Substance Use and High-Risk Behaviour* Richard Pates, Diane Riley, 2012-05-31 Harm Reduction is a philosophy of public health intended as a progressive alternative to the prohibition of certain potentially dangerous lifestyle choices. Recognising that certain people always have and always will engage in behaviours which carry risks, the aim of harm reduction is to mitigate the potential dangers and health risks associated with those behaviours. *Harm Reduction in Substance Use and High Risk Behaviour* offers a comprehensive exploration of the policy practice and evidence base of harm reduction. Starting with a history of harm reduction, the book addresses key ethical and legal issues central to the debates and developments in the field. It discusses the full range of psychoactive substances, behaviours and communities, with chapters on injecting, dance drugs, stimulant use, tobacco, harm reduction, alcohol use and sex work. Written by an international team of contributors, this text provides an essential panorama of harm reduction in the 21st century for educators and researchers in addiction and

public health postgraduate students and policy makers **MHealth in Practice** Jonathan Donner, Patricia Mechael, 2013-01-17 Leading researchers and practitioners identify the best practices in using mobile technologies to promote healthy behaviours and reduce unhealthy ones placing a special focus on developing countries **Policy Issues in Insurance Risk Awareness, Capital Markets and Catastrophic Risks** OECD, 2011-08-12 Includes reports on initiatives to promote natural hazard awareness and disaster risk reduction education the role of financial markets in financial mitigation of large scale risks mechanisms used to quantify catastrophe losses and hazard risk mapping efforts in Southeast Asian countries SIMULATION & GAMING THROUGH TIMES AND ACROSS DISCIPLINES Marcin Wardaszko, 2019-08-30 The ISAGA 50th Anniversary Conference proceedings is a collection of 76 accepted submissions The proposed papers and posters are very diversified and have backgrounds in many areas yet they come together in the simulation and gaming We had 12 tracks for papers a poster submission track workshops track and thematic sessions proposals track The 50th anniversary track will allow us to look back at our heritage The core tracks with the biggest number of submissions are the simulation and gaming track and game science theory track For the first time we also had tracks for gaming technology AR VR e sport science and gaming cultures we have received many interesting and quality submissions which will add new perspective and diversity to our field ISAGA wants to stay relevant and up to date with the current problems thus the tracks for S G for logistics and smart infrastructure gaming for individual efficacy and performance and gaming for sustainable development goals We have also received ten poster submissions with very interesting topics **Preventing Eating-Related and Weight-Related Disorders** Gail L. McVey, Michael P. Levine, Niva Piran, H. Bruce Ferguson, 2013-01-24 This book presents a collection of writings by expert researchers from Canada the United States and Australia who are committed to finding common cause and common ground in the prevention of eating disorders and obesity The ten chapters in this book seek to create a new public health approach to the prevention of weight related disorders one that counters the confusion and frustration from public policies messages and programs that recipients of prevention efforts often experience The first section looks at prevention from a public health perspective and the second section highlights theories from risk and resilience research that can inform the prevention of weight related disorders The contributions are varied in their theories and models but woven throughout is the theme of collaboration in changing public institutions and social systems that promotes universal prevention and fosters mental health and resilience Unique methods of linking systems and fostering partnerships across sectors and disciplines are highlighted and readers are exposed to innovative ideas of how to move the field of prevention science forward to reduce the onset of negative body image unhealthy weight management eating disorders and disordered eating Preventing Eating Related and Weight Related Disorders is the second in a series of titles from The Community Health Systems Resource Group at The Hospital for Sick Children This series will educate researchers policy makers students practitioners and interested stakeholders on such topics as early intervention in psychosis aggressive

behaviour problems eating related disorders and marginalized youth in educational contexts *Computational Science and Its Applications - ICCSA 2025 Workshops* Osvaldo Gervasi, Beniamino Murgante, Chiara Garau, Yeliz Karaca, Maria Noelia Faginas Lago, Francesco Scorza, Ana Cristina Braga, 2025-07-04 The 362 full papers 37 short papers and 2 PHD showcase included in this book were carefully reviewed and selected from 1043 submissions In addition the conference consisted of 58 workshops focusing on very topical issues of importance to science technology and society from new mathematical approaches for solving complex computational systems to information and knowledge in the Internet of Things new statistical and optimization methods several Artificial Intelligence approaches sustainability issues smart cities and related technologies
