Portsmouth England on February 7 1812 Charles Dickens enjoyed a comfortable childhood until his father lost his post at the Navy Pay Office ultimately landing in debtors prison Young Charles endured an horrific experience pasting labels on jars of bootblack in a rat infested slum and living in an attic He would later teach himself shorthand and find work as a newspaper writer covering politics and then the courts These experiences with his near photographic memory would provide him with material for the colorful characters and vivid depictions of life in England which characterized his work for decades The publication of *The Pickwick Papers* in 1836 the world's first true literary phenomenon brought Dickens success and within a few years he was an international celebrity Ultimately he would become the foremost novelist of the Victorian era and one of the most widely read writers in history His books have never gone out of print have been turned into films and plays and are still widely read today Known for his compelling storylines and unforgettable characters Dickens' stories also served as vehicles for social commentary often harshly critical of class stratification and public institutions but without the strident or didactic tone that might have alienated readers In particular and contrary to the prevailing views of the time Dickens viewed the poor as wretched not because of their own weaknesses and moral failures but because of their helplessness before society's attitudes and institutions Yet Dickens managed even when dealing with grim and serious subject matter to maintain a humorous element and satire and caricature fill the pages of his works Dickens died on June 9 1870 following a stroke Given the body of work he left behind it is striking to note that Charles Dickens was just 58 years old at his death
