Challenged Cori Coleman,2010-04 Cori Coleman is currently enticing readers with short stories and long tales of fantasy love and perseverance Mentally Challenged why name call A title to make you think he thought to himself as he begins his journey as a writer became more than a catch phrase but what Coleman intends to soon make a monument in society with an older brother diagnosed with a learning disability at age 16 Coleman began some extensive research into what challenges fell before his older brother in life After observing children from elementary schools middle schools and high school it became evident the challenges of those with disabilities can be reading writing listening memory and various other obstacles Many of the individuals with disabilities were successful at learning how to overcome reading and writing challenges but there was however one challenge each individual failed to overcome every day night and forever the disability itself Today we label certain individuals with mental disabilities as challenged but how incontrovertibly unfair and beyond untrue from youth to

adults there is no challenge here they will not recover or become reborn or endure some living transformation involving the spirit ideas of reincarnation When you have autism that is what you have autism and that will not change As for us what I hear many of us describe ourselves as Normal folk it is apparent we do have challenges mental challenges and we also have possible real life solutions leading us to the victory over these challenge Our lives are far more complex than any rare or common disability What we endure on a daily basis is the very evidence of the manifestation of our challenges psychologically the labels we press upon those who have to live with certain behaviors indefinitely must be reassigned for our intelligence has been praised often to high and our system of living is and has been bullied into a pattern of obstacles and struggles only the normal man can create for another human being We have responsibilities far more grave and life threatening and the time to seek out these challenges is now the time to realize who really suffers from Mental Challenges is now and the individual s who shall first recognize this is we Change starts now *The Motor Boat* Francis P.
