as unpopular culture The book contains important insights into that complexr maddening phenomenon American popular culture Scholars educators and general non fiction readers will find much enlightening material Most people associate pop culture with movies music and TV shows Yet this volume suggests that in modern society pop culture ultimately absorbs almost every facet of the collective life as to become generic and ever present Literature for example whether American Japanese or Italian may lose their cultural distinctiveness and writers may forget their bibliographic ties A literary agent defending her client on charges of alleged plagiarism commented As a former teenager myself I recall that spongelike ability to take popular culture and incorporate it into your own lexicon As this volume implies pop culture has both uplifting and downgrading possibilities Levantman has assembled a varied and fascinating collection of original and imaginative investigations into the pop culture every American knows and loves or hates It s exciting reading and covers all the bases Howard Becker Author of Art Worlds and Outsiders
